TROUBLES ALL COME AT ONCE

Series Of Mishaps Befall The Robinson Family Of North Grimsby, At Home And Abroad — Soldier Son Has Fingers Broken While Roller Skating In England.

Robert Robinson, young son of Peter Robinson, North Grimsby township, is suffering from concussion as the result of an unusual accident. While playing at school on Wednesday he slipped on a peach skin and fell, striking his head on a peach pit. Taken home by another youngster, he complained of a headache, was given some tablets and put to bed.

Next morning he was partially paralyzed and Dr. A. F. McIntyre, who was called, suspected polio and ordered his immediate removal to Hamilton General Hospital for observation. Tests there showed no signs of the dread disease and he was brought home Friday under doctor's orders to remain in bed for the next two weeks for concussion caused by the fall.

Incidentally, his mother, who drove him to hospital in the family car, was involved in a traffic mix-up on the way home which damaged the car.

Earlier in the week the family received a letter from their son, Pte. George Robinson, overseas, telling of having the fingers on his right hand broken. It seems that he was on leave in England and was roller skating when there was a general pile-up on the floor and some one's roller skate went over his hand, breaking the fingers.

No New Revenue From Power Lift

Hydro Commission Will Barely Break Even On Increased Power Usage As It Will Raise Peak Load.

"Lifting of the power" restrictions will not give Grimsby Hydro Commission any increase in revenue. In fact it might cost us a little money, so stated Mayor Johnson, Chairman of the local Commission on Wednesday.

"As this season of the year when darkness comes early," said Mr. Johnson, "the window lights in the stores and the illuminating signs are turned on before the factories shut down for the day, as a consequence our peak load of power is raised. The revenue derived from the window lights and the signs is barely enough, if enough, to cover the cost of the increased peak power usage."

"Of course," he remarked, "in the late spring and summer the peak will be lower as the lights and signs either do not come on at all or are lighted after the factories have shut down, but in the meantime we will derive no revenue from the lifting of the restrictions."

Grimsby Has A Soldier Bruin

Tickets On G. I. Brad, Replenished In Uniform Of 1776 — Being Sold For Ditty Bag Funds.

As everybody knows the American Army soldier is known as a Bruin, just like all English soldiers are Tommy and Canadians are Canucks. But it remained for Mrs. "Buddy" Shafer in her energetic desire for funds to fill Ditty Bags, to produce a new kind of soldier.

This warrior is known as G. I. Brad. He is no more nor less than an oversized, white Teddy Bear, dressed in the resplendent red, white and blue uniform of the fighting man of the United States Revolutionary war of 1776.

This soldier bruin in all his trap-pings is on display in the window of the Model Dairy and has all the kids in town going wild. Tickets on this G. I. Brad are being sold at 10 cents a piece or three-for-a-quarter. As soon as the tickets are all sold the drawing will be made.

Peach Queen Bowling league girls have taken 100 books to dispose of, so this means that the sale of tickets is not going to drag on too long.

Better buy your book today and thus help to fill a Ditty Bag.

Sesqui-Centennial Anniversary Celebration At St. Andrew's

The historic ivy-covered stone church stands in silent dignity among the graves of its founders.

The grave of William Crooks, a pioneer parishioner, is decorated by Bishop L. W. B. Broughall. Note ancient table-top grave stones.

Above is a scene in the churchyard during the services. Rt. Rev. L. W. B. Broughall, Bishop of Niagara, is seen at centre near the church cenotaph, and nearest the camera is Rev. E. A. Brooks, rector. On the opposite side of the picture are Revs. Fred Maunsell and Ray Andrews of Beamsville. At the rear is the surplised choir.

Large Congregations Attend Services On Sunday — 19 Boys And Girls Confirmed By Bishop Broughall — Pioneer's Descendants Decorate Graves — Historical Booklet Published.

"The story of those pioneers of a century and a half ago is the story of Ontario and of Canada — that grand and glorious story that has influenced the hearts and souls of the young Canadian men and women in the war to-day. While we in peace worship and commemorate the forefathers, their descendants are battling overseas to attain that high privilege," Rt. Rev. L. W. B. Broughall, Bishop of Niagara, said Sunday afternoon at a service of thanksgiving and commemoration for the founders and builders of St. Andrew's parish.

The service was held in St. Andrew's churchyard in connection with the celebration of the 150th anniversary of the founding of the parish by United Empire Loyalists.

Direct descendants of the pioneer families of whom lie in the flowers old churchyard, placed ceremony their graves during the service.

"I'M JUST MESSENGER BOY," INSISTS THE KING'S COURIER

HOSPITAL JOB PROGRESSING

One Can Now Visit Building And Visualize The Many Rooms And Services To Be Provided.

Real progress is being made at the West Lincoln Memorial Hospital, carrying into effect plans formulated during the past year, which is pleasing to the public and to the officials of the Hospital who for so many months have kept up steady plodding to overcome the many obstacles met with in the development of such an undertaking. Very few walls are being moved, but with the many subdivisions, already some idea may be gathered of the final pattern.

The main corridor is now quite distinctly developed from which one may visualize the many rooms and services on the ground floor, which includes three private rooms, two semi-private, and three ward rooms. There is a general nursery of eight cubicles, together with (Continued on page 7)

Oldest Member At Anniversary

Mrs. Effie Black Of Hamilton Was Confirmed In St. Andrew's Over 75 Years Ago — Was A Clarke.

Over three-quarters of a century ago, a little girl, Effie Clarke, was confirmed in St. Andrew's church. On Sunday, that same little girl, now Mrs. Effie Black of Hamilton, attended the anniversary services, being the oldest member of the church in attendance.

Mrs. Black, "Aunt Effie", to the editor, was the youngest member of the well known and prominent Clarke family of the Old Forty, one of the best known members of which, to the citizens of latter days were William F. "Uncle Bill"; George, father of Our Andy and Henry, father of Harry Clarke, ex-M.P. for Rosedale, Toronto.

Mrs. Black as a bride of 28 went to Winnipeg to reside in 1884, and remained there until the death of her husband some years ago, when she returned to Toronto, later moving to Hamilton. Despite her 88 years she is very active and all her faculties are as keen as a razor edge.

She was accompanied to the anniversary ceremonies by her niece, Mrs. W. F. Randall of Fruitland.

Wing-Comdr. R. H. Walsh, R.A.F. Visits His Sister In Grimsby — Has Been In British Fighting Units For 40 Years.

REAL IRISHMAN

Carries Official Documents All Over The World And Never Knows What Is In Them—Crossed Ocean Four Times In One Month.

Grimsby was honored for a few brief hours last week when Wing Commander R. H. Walsh, Royal Air Force and a King's Courier, paid a visit to his sister Miss Harriet Walsh, 13 Murray street.

Jack Hakbleton, writing in The Toronto Globe and Mail speaks of the Wing Commander as follows:

A man who carries some of the most important secret documents of the war stepped off a Trans-Canada Airlines plane at Malton Tuesday night, bent on catching the first possible train to Grimsby. But he wasn't acting as a King's Courier last night.

Wing Comdr. R. H. Walsh, grizzled Irish veteran of more than 40 years' army service — and then some RAF service, because he was too old for the army when the war broke out, was going a-visiting. A sister, it seems, lives at Grimsby (Continued on page 7)

Boys Breaking Street Lights

Four Broken In One Night On Oak Street — Every Light Broken Costs Commission \$1.60.

Grimsby Hydro Commission is having considerable trouble with street lighting owing to the large number of lights that are being broken by boys with small stones and pea shooters.

Four lights were smashed on Oak street in one night and two on Livingston avenue. Odd lights at various parts of the town have been broken during the past few weeks.

Parents of children should be very severe in warning their offspring of the seriousness of breaking these street lights. Every light broken means a cost of \$1.60 to the Commission, in cost of bulb and labor charges, as well as causing great inconvenience to the public using the streets after nightfall.

Major E. H. Lancaster Receives E.D.

Major E. H. Lancaster, K.C., Crown Attorney of Lincoln County was presented with the Canadian Efficiency Decoration by Major John Ball, D.S.O., O.B.E., E.D., at the first fall parade of the 10th St. Catharines Field Battery, R.C.A. (R) in the armory, St. Catharines, last week. A year ago, Major Lancaster pinned the same decoration on Major Ball. They have been together in military affairs for 40 years. Lancaster's tunic for long and efficient service to the army. The ceremony was witnessed by Mrs. E. A. Lancaster, mother of "Teddy", a former Grimsby girl, being a daughter of the late Hamilton Pettit, and an aunt of Mrs. Hugh Whyte and Miss Marion Pettit—Cut Courtesy St. Catharines Standard.

FACTS & FANCIES

Frank Fairborn, Jr.

THE ZOMBIE'S PSALM

MacKenzie King is my shepherd: I shall not wander.

He maketh me not to wear a G.S.

He leadeth me not across the still waters.

He restoreth his vote.

He leadeth me along the paths of Canada only, for his party's sake.

Yea, though I move about from one camp to another,

I will fear no draft; for the "King" is with me;

His government and his cabinet they comfort me.

He prepareth a table before me in the presence of mine Active enemies;

He doth not clip my hair too short: My glass runneth over with Canadian beer,

Surely the government will not alter its policy at this late date.

And I shall dwell in the confines of Petawawa forever.

—Amen.

A REVOLUTIONARY CHANGE

Twenty-five years ago the number of blind people making a living in Canada was less than a hundred. For those who were not working, no services of any kind were provided. Now there are over twelve hundred blind men and women regularly employed and hundreds of others who earn substantial sums each year by working at home. Moreover, there is now provision made for teaching the adult blind Braille, typing and handicrafts. There is a magnificent library at their disposal. They have access to recreational facilities. In some cities there is residential accommodation for them.

There has been a revolutionary change in the lives of the Canadian blind. That change has been brought about by The Canadian National Institute for the Blind which, in order to maintain its services and make them still more effective, appeals to the public for the necessary financial support.

The campaign for the funds the Institute must have is now in progress in Grimsby, and a tag day will be conducted on Saturday of this week. Be as generous as you can. Make cheques payable to The Canadian National Institute for the Blind.

PARENTS, WHERE ARE YOUR LITTLE CHILDREN?

Records compiled by the Dominion Fire Commissioner show that 35 small children met their deaths by fire in 1943 in Canada when left alone in their homes. Eight others died as the result of playing with matches. Altogether, 149 children perished by fire last year in Canada.

These tragedies are reported day after day in our daily papers, but beyond those immediately effected they do not seem to make much impression on the general public. Parents still insist on going out of their homes and leaving helpless little infants to fall prey to flames from overheated stoves and pipes. Others will leave children of two or three years of age alone, with matches within easy reach of their inquisitive little hands.

Many parents say they would never get out to a movie or for other relaxation if they had to depend on getting someone in to look after their children these days. Wartime conditions have made this safeguard a very difficult one, they contend. What a price many have had to pay for a few hours of borrowed pleasure! Hearts that will remain

saddened for a lifetime because of their neglect!

Parents, if you truly love your children and if you assume your full responsibility in regard to their welfare, you will not leave your small helpless children alone in your homes to become the victims of the fire demon. Always make sure that there is some responsible and competent person left in charge of them or take them with you.

Educate your children in the dangers of playing with matches or bonfires. Keep matches well out of their reach. Children can be taught fire prevention principles with very little effort. Therefore, lose no opportunity to safeguard your children against the ravages of fire.

Fire Prevention Week in Canada is October 8th to 15th — Do your part.

UNDERSTANDING

The British Weekly prints the following from a U.S. soldier in New Guinea:

"My Dear All:

"It was nice to hear from you, but I was sorry to hear that the war has completely changed your living conditions. I understand, because my living conditions have been changed too.

"It is too bad that you haven't the car now, and have to walk so much. I sometimes have to walk 20 miles through the swamp, so I understand.

"Too bad that your choice of food is so limited. I am in the same boat, except that it is our food that is limited, and there isn't any choice at all; so I can understand.

"What a shame that Jim and Alice can't get to the dances now because there are so few buses. I haven't been to a dance for months, and our buses are not only overcrowded, but they never quite know where they are going, so I can understand.

"I'm very sorry that you are paid so little for working so hard. Fancy, only time and a half for overtime! We don't get paid for overtime, so I do understand.

"This war is really very hard on us. You work long hours and so do I, so I can understand. But while I am working I get shot at. CAN YOU UNDERSTAND.

Ever yours,

—"JOE."

SPOILING A NICE PICTURE

We have become used to the perversions of Nazi psychology, and when Dr. Goebbels or Hitler cries out against an alleged breach of inter-national law by the Allied nations we pass it off with a tired smile.

But this perversion appears to be catching, or perhaps it is a common characteristic of all fanatics, thinks George James, Editor of the Bowmanville Statesman. An example of this queer mental twist occurred in the House of Commons at Ottawa recently when Clarence Gillis, CCF member for Cape Breton, complained bitterly that Thomas Reid, Liberal member for Westminster, had slandered our sister Dominion of New Zealand.

At a previous session Mr. Gillis had presented a glowing picture of New Zealand as a Socialist Utopia, and had cited comparative figures which purported to show how much better they do things in that island than we do in Canada. Mr. Reid went to work on New Zealand Government reports and discovered that Mr. Gillis' facts and figures were so far wrong as to present the very opposite of the truth. Here are some of the comparisons Mr. Reid worked out:

	N. Zealand	Canada
Per Capita Debt		
Dominion	\$1,024	\$670.00
Dominion plus local governments (plus provincial in Canada)	\$1,152	\$908.00
Rate of Interest	3.24%	2.60%
Per Capita load on interest charges	\$28.75	\$14.65
Per Cent Debt payable outside	33	3.3
Income Tax		
Single man		x
\$700 a year	\$53	\$13.00x
Married man, 2 children		
\$1,500 a year	\$21	\$25.50x
x—Pre-latest Canadian budget, refundable deducted.		

Annoyed at this exposure of misrepresentation, Mr. Gillis indignantly charged Mr. Reid and other members of the House with trying to belittle the people of New Zealand who had made such a fine contribution to the war.

It was alright for Mr. Gillis to belittle and besmirch Canada by citing false statistics, but for Mr. Reid to go to the trouble to dig up facts that spoiled the CCF's glowing picture of Socialism in New Zealand — That was nothing short of a cruel slander against the New Zealanders. Such is the mental perversion of fanaticism.

Success may go to one's head, but the stomach is where it sits in its worst work.

There is a man who never drinks, Nor smokes, nor chews, nor swears; Who never gambles, never flirts, And shuns all sinful snares— He's paralyzed.

There is a man who never does Anything that is not right; His wife can tell you where he is At morning, noon and night— He's dead.

'WAY BACK WHEN

Frank Fairborn, Jr.

UPON reference to my "Bible" i.e. scrapbook, I find that for the week of Sept. 15-22, 1913—\$1 years ago—there were shipped over the G.T.R. by rail from Grimsby and Winona, 152 cars of the district's finest product. 79 cars from Winona; 73 cars from Grimsby. These cars contained approximately 273,600 baskets and in those days they would be mainly 11 quarts.

No record is given of the number of cars that were handled over the H. G. & B.—C. P. R. lines but there would be at least 20. By Canadian Express in small lot shipments there were 78,000 baskets and there would be at least half this amount shipped by Dominion Express although I have no figures available.

On the 27th day of this month, 1913, there passed to his Eternal Home, a highly respected and most beloved citizen, in the person of Thomas Rome. "Tommy" Rome will be well remembered by hundreds of people throughout the whole peninsula.

The late Mr. Rome came to Grimsby as a very young man, in the early Sixties, from Peterhead, Scotland, and shortly after arriving here accepted the position of public school teacher and for some years taught the three "R's" to Grimsby children in the little old school house on Elm street, which was later moved to the corner of Mountain and Elm streets and is now the home of Mrs. Bessie K. Moore.

After giving up the school work he went to work for the late E. J. Palmer in his general store, but finally tired of this and moved to St. Joe, Mo., and entered business on his own account. In the early 70's he moved back to Grimsby and entered into partnership with the late John H. Grout in the implement manufacturing business, where he remained until the death of Mr. Grout, when the business was disposed of to the Grimsby Manufacturing Co. a company headed by the late James Doran.

He then moved to Hamilton and despite the fact that he was well advanced in years was connected with the Bank of Hamilton for some time. Then he retired and moved back to Grimsby. He was 86 at the time of his demise.

On Sept. 10, 1913, the Department of Public Works, Ottawa, called for tenders for the erection, on Livingston Ave. of a Precooling Plant. This plant is now the modern plant of the Growers Cold Storage and Ice Co. Ltd.

Just notes of Sept., 1913 — Jas Noke passed

away . . . W. M. Stewart has a miraculous escape from death at the Depot street crossing of the G. T. R. . . . Thieves make a haul of \$350 worth of gent's furnishings from the A. F. Hawke store . . . Rumors are rife in the district that the C. P. R. will build a high speed electric line from Hamilton to Niagara Falls . . . James Bird and Frank Weller form a partnership in the plumbing and tin-smithing business . . . H. G. & B. electric railway are to appear before the Dominion Railway Board and explain the ways and wherefores of the poor service they are giving the public, this hearing was the outcome of a long fight that The Independent had carried on to make the railroad give the public the service they were paying for . . . There is a shortage of fruit baskets throughout the district . . . Mrs. F. E. Hewitt's cat made a clean sweep of the Toronto Ex. cat show . . . Brick work was finished on the new post office . . . Capt. W. B. Nellis, an old Grimsby boy, passed away at Ingersoll. He was a brother of the late Cyrus S. Nellis.

HOW DID THEY MANAGE?

In days of old when knights were bold
And they grew as hard as nails . . .
When sailors climbed with a fear-free mind
To furl their stout ship's sails . . .
When a blacksmith strong swung all day long
Nearth his spreading chestnut tree,
They'd never heard—no never a word
Of vitamins A and B.

Men plowed their land with a sturdy hand
And hewed in their plot of wood . . .
Tough pugilists with their knotted fists
Fought bouts that were long and good;
Brave fisher folk, wearing no man's yoke,
Won fousts with an angry sea.
Though they never knew what it was to chew
On vitamins C and D.

At a merry pace Greeks used to race
For two score miles or more,
And gladiators were no debaters
O'er what their scrap was for;
They'd slash and pound till they got thumbs down
Or the head of their foe was cleft,
And I've heard no word that they ever heard
Of vitamins E and F.

C. they must be good or they never would
Be used by the men who know
The reason why folk fail and die,
And whose diagnosis show
That their bodies plead for vitamin need,
But what gets me really down
Is that none can tell how we kept so well
Ere this vitamin stuff was found.

No one kin feel as helpless as th' owner
Of a sick goldfish.

Who recalls when folks got along with-
out somethin' if it cost too much?

SHELLS

CABLE

Unlimited demand... limited supply!

Copper is needed for telephone cable.

But it is also required for shells, planes, communications equipment and other war supplies. This is true of many another telephone material, too.

There's just no alternative. Until victory, war needs come first. With reserves of telephone equipment at low ebb and almost im-

possible to replace, they must be rigidly conserved.

To all those applicants who are still waiting for telephone service, we can only say that we fully appreciate their problem. On our part we are making maximum use of existing equipment to serve as many people as possible.

We shall keep on doing the best we can with the telephone equipment obtainable.

On Active Service

Giving Wings to Words

A. C. PRICE

Manager.

Mainly For MILADY

What Price Brides?

The Canadian Price Controller has had problems but none like his counterpart in Durban, South Africa, who had to give a decision on the price of brides. A native complained that his prospective father-in-law was taking advantage of war shortages by boosting the price on the girl from \$88 and seven cows to \$128 and seven cows. There was, of course, no price ceiling on brides and the controller refused to fix one, but the would-be bridegroom none the less was sure there ought to be a law against rapacious fathers-in-law. Price control here has of course, had a great deal to say about the cost of the bride's costume and the rent the happy couple pay, to mention only two of the cost items of marriage.

Inflation Battle Lost

Housewives who go marketing in Chungking find, though the battle against the Japs is still undecided, the battle against inflation has definitely been lost. It is nothing for a woman to spend 200 Chinese dollars filling her market bag. No matter how many dollars she has she is likely to get nothing at all if she isn't in the market by 7 in the morning. Here is what one Chinese shopper, according to a letter from Chungking, got for \$200, after a lot of careful haggling and haggling. Passing up bamboo sprouts as too dear, she first bought 11 ounces of brine-soaked spinach to give the rice a tang. Fish also was too dear. So she bought snails. Her biggest investment was in eggs, 20 of them, and she picked each up and held it to the light. Her whole \$200 would not have bought her family enough meat for dinner, and to increase her protein purchases she added crabs to the snails. What she bought filled only a small basket, but it had to last three dinners along with the rice she had at home.

Stockings Of The Future

If silk stockings return again, they will be more appreciated than ever, for, according to pre-glimpses of the future given at a recent convention of the American Chemical society, it is possible to make stockings that will not run. There will also be suits that will not wrinkle when they are wet and woollens that will wear three times as long without any change in the texture of the cloth. The chemists are not going to forget men entirely, for they promise them trousers that will not shine no matter how sedentary a life the wearer may live. Every woman knows how annoying it is to have cotton thread break. That annoyance will be a thing of the past when the chemists add, as they say they can, 50 per cent. to the tensile strength of cotton fibres by coating them with a recently developed solution. At the convention, it was said, too, that 10 per cent. of the sawdust now wasted would produce plastic parts for 4,000,000 automobiles and would supply acetic acid to provide nylon for 130,000,000 pairs of women's stockings. In short, the post-war future as far as feminine hosiery is concerned is exceedingly bright.

Sensible Care Means Longer Wear

"Women have been conservation conscious for some time now", said a tailor the other day, "but while they know how to get the most out of a favourite dress, woollen jacket and the countless other items which make up a woman's wardrobe they don't always realize that men's clothes need just as much care and attention."

Here are his suggestions for common-sense care which will result in longer wear:

The wool fibres of suits will be given a chance to 'relax' and spring back into shape if suits are worn on alternate days. If properly hung on a hanger in the clothes cupboard they will not require as frequent pressing.

Regular brushing is a 'must'. This will remove grinding dust particles which are injurious to cloth. A suit which is dusty will wear out more quickly for the dust fibres cut into the wool fibres, say the experts.

If suits are pressed at home, the damp cloth between the fabric and the iron is a must. It prevents possible scorching of the wool fibres and also prevents shine.

Spots should be removed as soon as possible. The longer a spot remains on a suit the harder it will be to remove. Pressing a suit before all the spots have been removed is dangerous practice, as under heat, a spot is liable to become a permanent fixture.

In conclusion this tailor claims that too frequent cleaning is almost as bad for a suit as too infrequent cleaning.

STACK OF DISHES and WATER WON'T RUN OUT!

POUR IN GILLETT'S!

WHEN THE LEAKY MESS that clogs your drain pipe meets up with Gillett's Lye it's a goner! Fast! In no time water's running freely again. And remember drains stay clear when you pour in Gillett's full strength once a week.

Use Gillett's in solutions to get floors spotless without hard scrubbing, to lighten the luster of all your heavy cleaning. Grandest way yet to have a clean, sweet-smelling house without break.

New Ration Book Issue Next Month

Twenty-Four Million Coupons a Week Are Used By Purchasers in Dominion — Follow Instructions.

That new ration book with the pink cover which you will obtain the week of October 14 to 21 will mark the fifth time you are sharing in a big wartime plan that starts in the tea plantations of India, the coffee regions of Brazil, sugar cane districts in the sunny caribbean area and Canada's own dairies. Every time a Canadian housewife has a coupon detached in her food store for some rationed commodity, whether it is tea, coffee, sugar butter or preserves, she is completing a transaction that started in one or other of these lands separated from each other by thousands of miles.

At least twenty-four million coupons every week, or four million each of the six shopping days, are detached from consumers' ration books. A lot of coupons and a lot of work! Yet Canada's rationing system is the simplest in existence: a system of share and share alike, at controlled prices. Ration Book 5 will be good for 50 weeks instead of 36 weeks as in the case of Ration Book 4. With the end of the war in sight, it was easier to look ahead 18 months. It takes six months to plan and prepare a ration book, and this time it was possible to get a more reliable

of the "K" coupon sheet in Ration Book 4. If any member of the family is under 16 years of age write his or her age after the name. Do not tear the sheet out. It must be intact when you present the book in order to get the new one.

When you get Ration Book 5, guard it carefully. It must last 50 weeks, so don't risk having the cover or any of the coupons detached or damaged.

The ration book is Canada's biggest printing and mailing job. Yet, with every item figured in — the work, paper, printing, shipping and distribution — the amount spent on it is unbelievably small. Ration Book 4 cost only one and seven-tenths of a cent a copy from start to finish.

UNDERWEAR QUOTAS

This year's quotas on children's underwear are in most cases substantially higher than those for previous years. The quotas for children's vests, for example, are 32 per cent. higher than last year; for girls' vests 58 per cent. higher and for girls' panties 26 per cent. above those of last year.

SUGAR COUPONS EXPIRE ON DECEMBER 31st

Housewives who don't use all their "F" coupons for purchasing canned sugar have until the last of the year to turn these coupons into preserves coupons at their local Ration Board. Canning sugar coupons are valid until December 31.

Next to block-buster the most devastating thing is for the neighborhood kids to invade the flower garden while playing.

THE MIXING BOWL

By ANNE ALLAN

Hydro Home Economist

Hello Homemakers! Your heart would like to send a Christmas box of carols and peace and hearth-fire if possible. However, a parcel of home favourites will kindle courage and happiness in the armed forces.

The overseas gifts for Christmas should be sent before October 15 this year to ensure delivery before Christmas. Eleven pounds (including packing material) may be sent to any members of the allied forces in the United Kingdom, Iceland, or on His Majesty's ships and His Majesty's Canadian ships abroad. The rate for mailing is twelve cents per pound. The complete address is necessary. If the actual address of unit is known, give the full postal address. If the unit is out of England, add to the rest of the address B.E.F., c/o Army Post Office, England. Remember, that the authorities have the right to confiscate a parcel if the contents are not carefully described and a parcel is returned to you at your expense when addressee is not located unless you give an alternative address.

Overseas Gifts

The 100% popularity prize goes to pictures from home, pictures of grandma, the baby, Scrammer the dog — everyday pictures of you and the family.

Sixty-five per cent of the navy rate a Bible as a grand gift, especially ones with both Old and New Testaments. Small, inexpensive editions of exciting stories are almost "eaten" up by the boys and girls in uniform.

Windproof cigarette lighters are important items if they smoke, but don't mail the lighting fluid or

matches — you may blow up the ship . . . you may send flints and pipe cleaners, sewing kits, leather wallets with insignia (not just any wallet), shoe brushes, razor blades, soap, tooth powder, hair tonic and writing pads and envelopes all come in handy.

Canned goods, especially soaps and concentrated foods, canned fish, waxed cheese and packaged crackers are suitable to send great distances.

Of course, the Christmas parcel is really complete when you are able to send a fruit cake — well packed — cakes and cookies that mash up or chocolates that melt are "not so good gifts."

It's so hard to give a blow-hard the air.

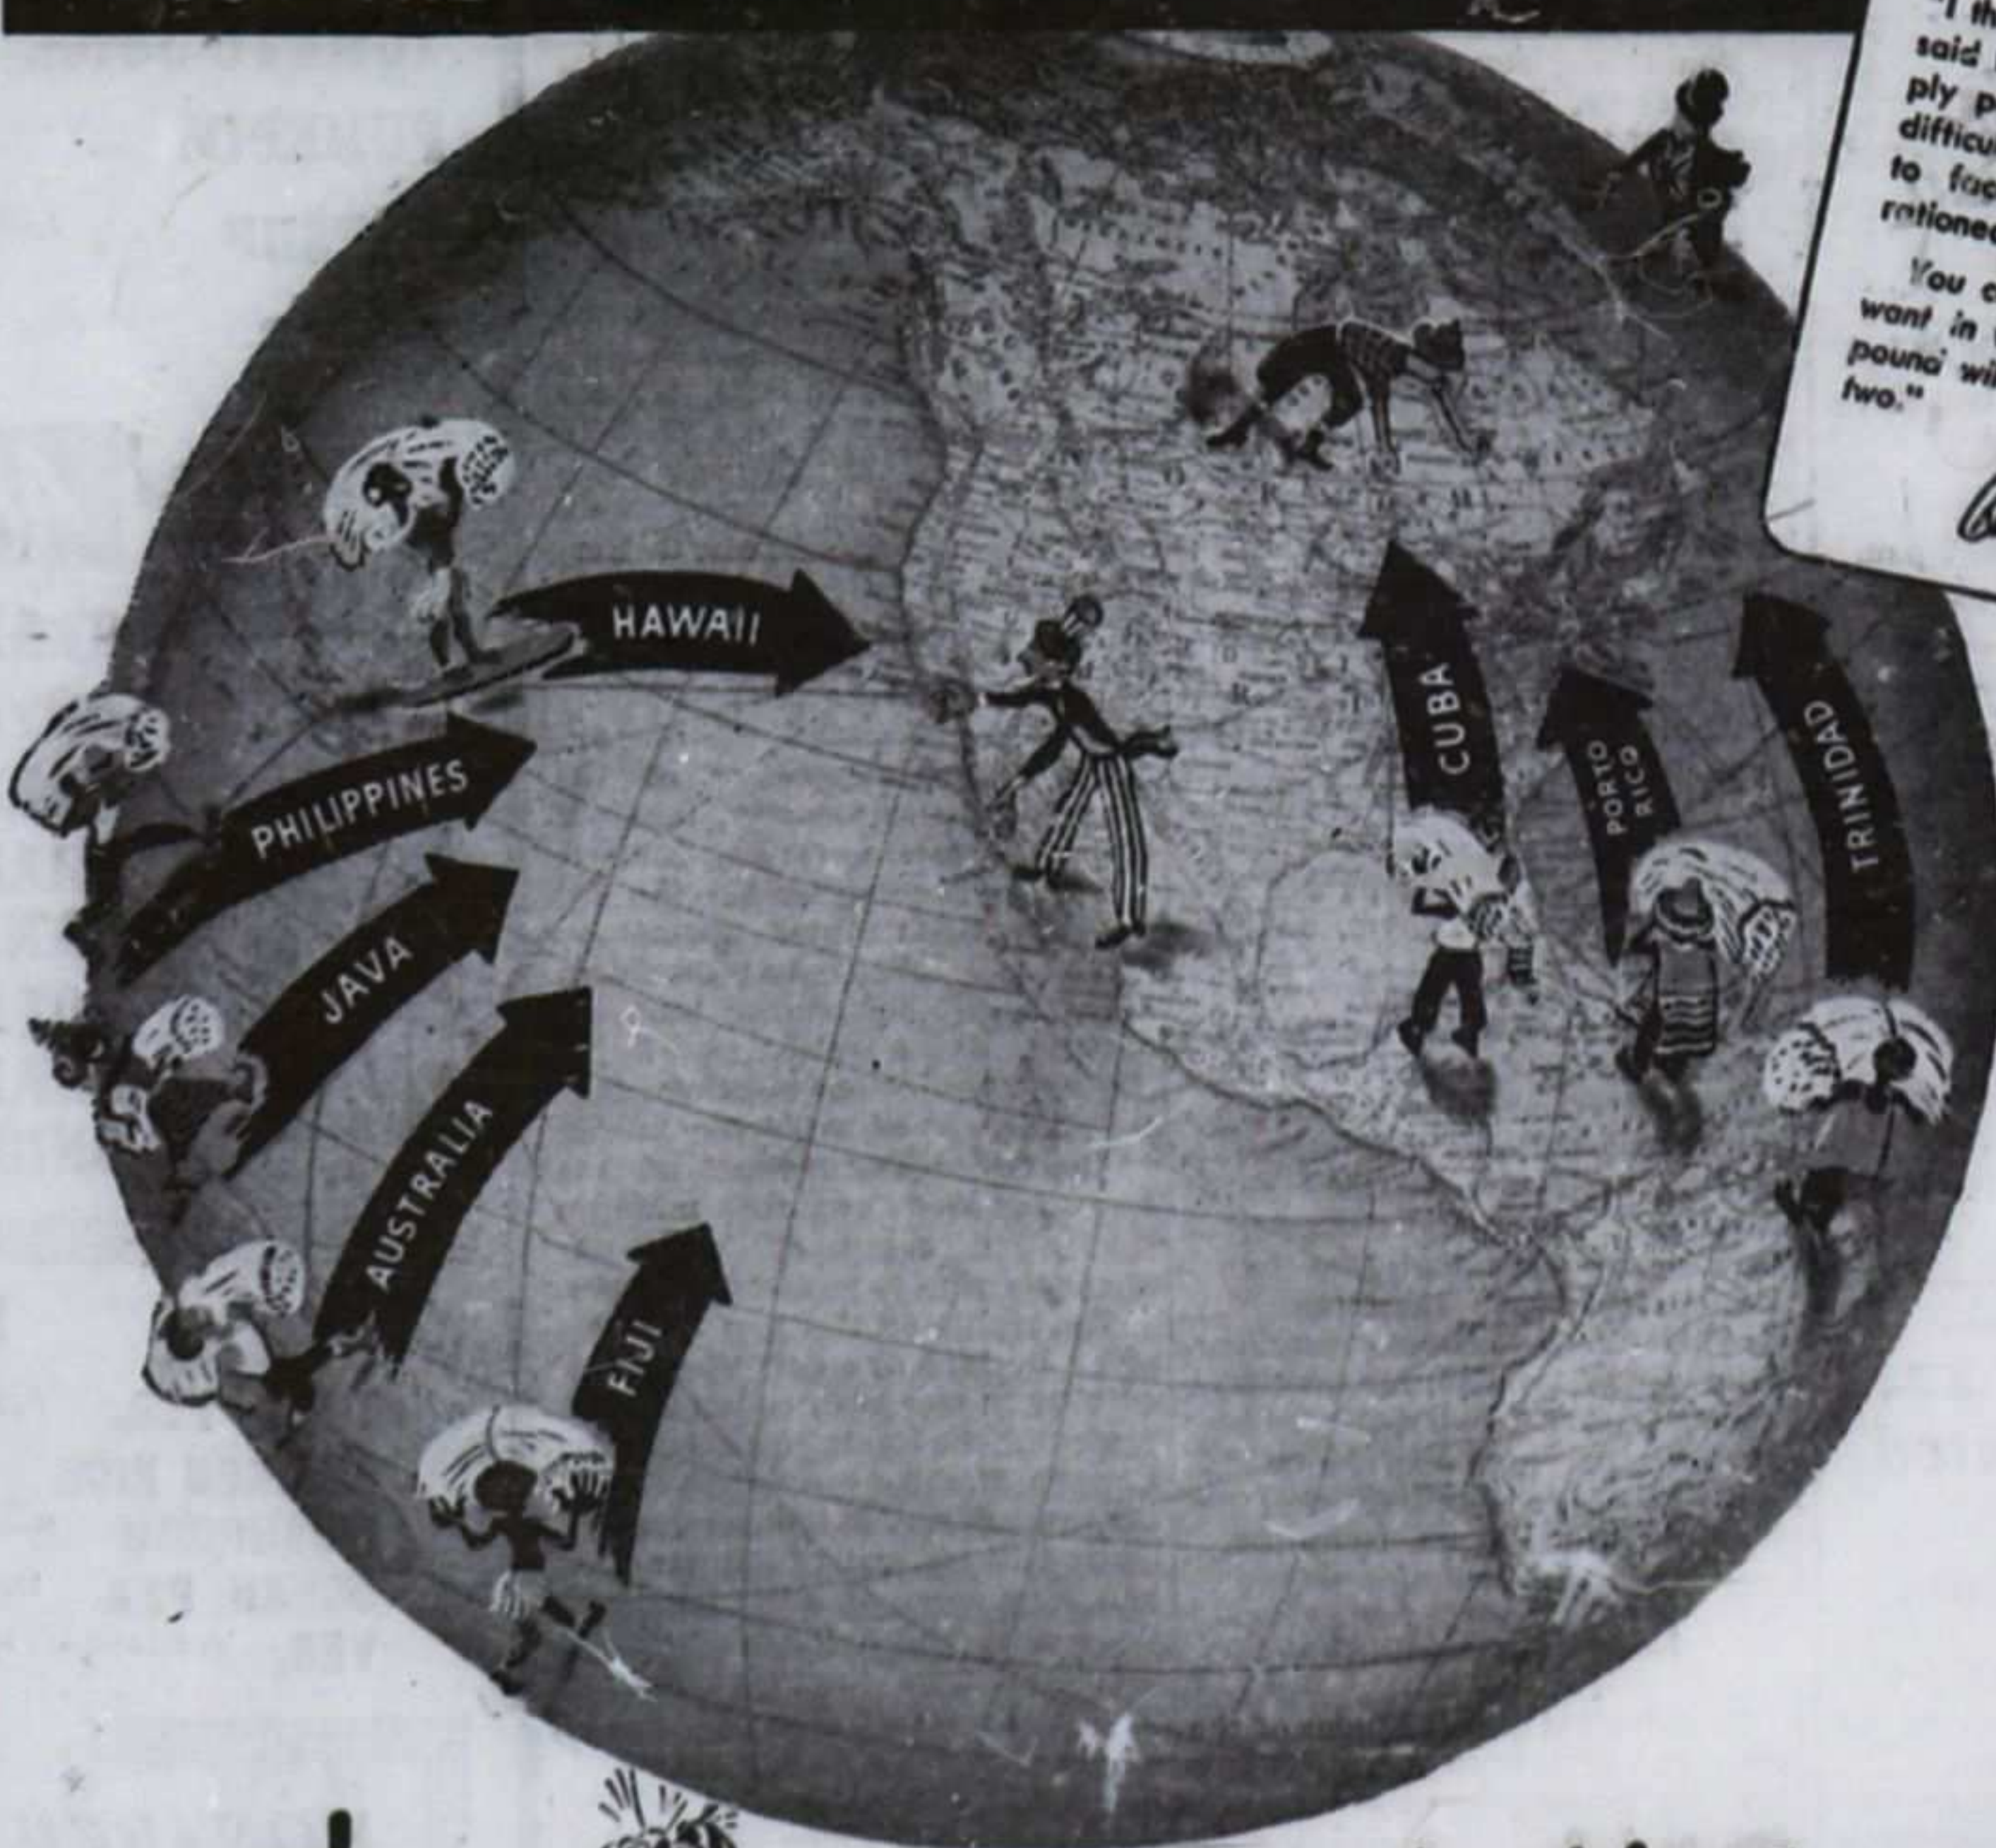

FOR SUPERIOR BAKING RESULTS

Leading Cooking Experts recommend it

Costs less than 1¢ per average baking

ABOUT THE THINGS YOU BUY IN WARTIME...

"I think it can be safely said that the sugar supply position is the most difficult situation we have to face today in any rationed commodity. You can't get all you want in wartime. If one pound will do, don't buy two."

The sugar situation is NOT sweet

FOUR-FIFTHS OF THE SUGAR CANADA CONSUMES HAS TO BE IMPORTED

This map shows where Canada, Great Britain and the United States got their sugar in the good old days of peace. Our three countries take practically all the exportable sugar from these major sugar-exporting areas.

But supplies have either been cut off by enemy occupation of the country—as in the case of Java and the Philippines, or their production radically reduced by shortage of workers, as in the case of Hawaii, Porto Rico, Australia, Trinidad, Fiji.

The war has brought some unusual demands on the United Nations' sugar pool. Vast quantities have been taken for making industrial alcohol used in the manufacture of synthetic rubber (tires, etc.) as well as T.N.T. and smokeless powder. For instance, the explosive to fill five 16-inch shells requires as much sugar as

even the production of beet sugar in Canada and the United States has been drastically cut by labour shortage. In both countries the '43 sugar beet crop is forty per cent less than in '41. The only country to show an important increase is Cuba, where output had for years been deliberately restricted. But its increase has not been sufficient to offset the losses elsewhere—let alone meet the increased demand.

ROLLING ON SUGAR

is produced on an acre of the finest sugar land. This year Cuban sugar alone used for making industrial alcohol will equal Canada's normal sugar imports for more than two years.

DO WE NEED MORE SUGAR?

A century ago the whole world didn't consume as much sugar as Canada does today. Our sweet tooth has been acquired in quite recent times. Sugar rates high for its energy value, but starchy food is a good substitute.

THE SUPPLY IS SHARED

All sugar supplies are pooled and under the control of the Combined Food Board of the United Nations, which allots supplies to Canada, United States and Great Britain on a uniform basis.

WE'RE LIVING ON OUR SUGAR CAPITAL

At the time of "Pearl Harbour" the United Nations had a reserve stockpile of sugar for the last 3

into "reserve." Liberated nations will have to dip in too. Extra good crops could improve the situation, but greatly increased supplies are not in sight. If current consumption keeps up,

FACTS & FANCIES

Frank Fairborn, Jr.

THE ZOMBIE'S PSALM

MacKenzie King is my shepherd: I shall not wander.

He maketh me not to wear a G.S.

He leadeth me not across the still waters.

He restoreth his vote.

He leadeth me along the paths of Canada only, for his party's sake.

Yea, though I move about from one camp to another,

I will fear no draft; for the "King" is with me;

His government and his cabinet they comfort me.

He prepareth a table before me in the presence of mine Active enemies;

He doth not clip my hair too short: My glass runneth over with Canadian beer,

Surely the government will not alter its policy at this late date.

And I shall dwell in the confines of Petawawa forever.

—Amen.

A REVOLUTIONARY CHANGE

Twenty-five years ago the number of blind people making a living in Canada was less than a hundred. For those who were not working, no services of any kind were provided. Now there are over twelve hundred blind men and women regularly employed and hundreds of others who earn substantial sums each year by working at home. Moreover, there is now provision made for teaching the adult blind Braille, typing and handicrafts. There is a magnificent library at their disposal. They have access to recreational facilities. In some cities there is residential accommodation for them.

There has been a revolutionary change in the lives of the Canadian blind. That change has been brought about by The Canadian National Institute for the Blind which, in order to maintain its services and make them still more effective, appeals to the public for the necessary financial support.

The campaign for the funds the Institute must have is now in progress in Grimsby, and a tag day will be conducted on Saturday of this week. Be as generous as you can. Make cheques payable to The Canadian National Institute for the Blind.

PARENTS, WHERE ARE YOUR LITTLE CHILDREN?

Records compiled by the Dominion Fire Commissioner show that 35 small children met their deaths by fire in 1943 in Canada when left alone in their homes. Eight others died as the result of playing with matches. Altogether, 149 children perished by fire last year in Canada.

These tragedies are reported day after day in our daily papers, but beyond those immediately effected they do not seem to make much impression on the general public. Parents still insist on going out of their homes and leaving helpless little infants to fall prey to flames from overheated stoves and pipes. Others will leave children of two or three years of age alone, with matches within easy reach of their inquisitive little hands.

Many parents say they would never get out to a movie or for other relaxation if they had to depend on getting someone in to look after their children these days. Wartime conditions have made this safeguard a very difficult one, they contend. What a price many have had to pay for a few hours of borrowed pleasure! Hearts that will remain

saddened for a lifetime because of their neglect!

Parents, if you truly love your children and if you assume your full responsibility in regard to their welfare, you will not leave your small helpless children alone in your homes to become the victims of the fire demon. Always make sure that there is some responsible and competent person left in charge of them or take them with you.

Educate your children in the dangers of playing with matches or bonfires. Keep matches well out of their reach. Children can be taught fire prevention principles with very little effort. Therefore, lose no opportunity to safeguard your children against the ravages of fire.

Fire Prevention Week in Canada is October 8th to 15th — Do your part.

UNDERSTANDING

The British Weekly prints the following from a U.S. soldier in New Guinea:

"My Dear All:

"It was nice to hear from you, but I was sorry to hear that the war has completely changed your living conditions. I understand, because my living conditions have been changed too.

"It is too bad that you haven't the car now, and have to walk so much. I sometimes have to walk 20 miles through the swamp, so I understand.

"Too bad that your choice of food is so limited. I am in the same boat, except that it is our food that is limited, and there isn't any choice at all; so I can understand.

"What a shame that Jim and Alice can't get to the dances now because there are so few buses. I haven't been to a dance for months, and our buses are not only overcrowded, but they never quite know where they are going, so I can understand.

"I'm very sorry that you are paid so little for working so hard. Fancy, only time and a half for overtime! We don't get paid for overtime, so I do understand.

"This was really very hard on us. You work long hours and so do I, so I can understand. But while I am working I get shot at.

CAN YOU UNDERSTAND.

Ever yours,
—"JOE"

SPOILING A NICE PICTURE

We have become used to the perversions of Nazi psychology, and when Dr. Goebbels or Hitler cries out against an alleged breach of international law by the Allied nations we pass it off with a tired smile.

But this perversion appeals to be catching, or perhaps it is a common characteristic of all fanatics, thinks George James, Editor of the Bowmanville Statesman. An example of this queer mental twist occurred in the House of Commons at Ottawa recently when Clarence Gillis, CCF member for Cape Breton, complained bitterly that Thomas Reid, Liberal member for Westminster, had slandered our sister Dominion of New Zealand.

At a previous session Mr. Gillis had presented a glowing picture of New Zealand as a Socialist Utopia, and had cited comparative figures which purported to show how much better they do things in that island than we do in Canada. Mr. Reid went to work on New Zealand Government reports and discovered that Mr. Gillis' facts and figures were so far wrong as to present the very opposite of the truth. Here are some of the comparisons Mr. Reid worked out:

	N. Zealand	Canada
Per Capita Debt		
Dominion	\$1,024	\$670.00
Dominion plus local governments (plus provincial in Canada)	\$1,152	\$908.00
Rate of Interest	3.24%	2.60%
Per Capita load on interest charges	\$28.75	\$14.65
Per Cent Debt payable outside	23	3.3
Income Tax		
Single man	\$53	\$13.00x
\$700 a year		
Married man 2 children	\$154	\$25.50x
\$1,500 a year		
x — Pre-1937 Canadian budget, refundable deduct.		

Annexed at this exposure of misrepresentation, Mr. Gillis indignantly charged Mr. Reid and other members of the House with trying to belittle the people of New Zealand who had made such a fine contribution to the war.

It was alright for Mr. Gillis to belittle and besmirch Canada by citing false statistics, but for Mr. Reid to go to the trouble to dig up facts that spoiled the CCF's glowing picture of Socialism in New Zealand — That was nothing short of a cruel slander against the New Zealanders. Such is the mental perversion of fanatics.

Success may go to one's head, but the stomach is where it sits in its worst work.

There is a man who never drinks,
Nor smokes, nor chews, nor swears;
Who never gambles, never flirts,
And shuns all sinful snares—
He's paralyzed.
There is a man who never does
Anything that is not right;
His wife can tell you where he is
At morning, noon and night—
He's dead.

'WAY BAK WHEN

Frank Fairborn, Jr.

UPON reference to my "Bite" i.e. scrapbook, I find that for the week Sept. 15-22, 1913—37 years ago—there were shipped over the G.T.R. by rail from Grimsby and Windsor 152 cars of the district's finest product. 79 cars from Windsor; 73 cars from Grimsby. These cars contained approximately 273,600 baskets and in those days they would be mainly 11 quarts.

No record is given of the number of cars that were handled over the H. G. & B.—C. P. lines but there would be at least 20. By Canadian Express in small lot shipments there were 78,000 baskets and there would be at least half this amount shipped by Dominion Express although I have no figures available.

On the 27th day of this month, 1913 there passed to his Eternal Home, a highly respected and much beloved citizen, in the person of Thomas Rome. "Tommy" Rome will be well remembered by hundreds of people throughout the whole peninsula.

The late Mr. Rome came to Grimsby as a very young man, in the early Sixties, from Peterhead, Scotland, and shortly after arriving here accepted the position of public school teacher and for some years taught the three R's to Grimsby children in the little old school house on Elm street, which was later moved to the corner of Mountain and Elm streets and is now the home of Mrs. Bessie K. Moore.

After giving up the school work he went to work for the late E. J. Palmer in his general store, but finally tired of this and moved to St. Joe, Mo., and entered business on his own account. In the early 70's he moved back to Grimsby and entered into partnership with the late John H. Grout in the implement manufacturing business, where he remained until the death of Mr. Grout, when the business was disposed of to the Grimsby Manufacturing Co. a company headed by the late James Doran.

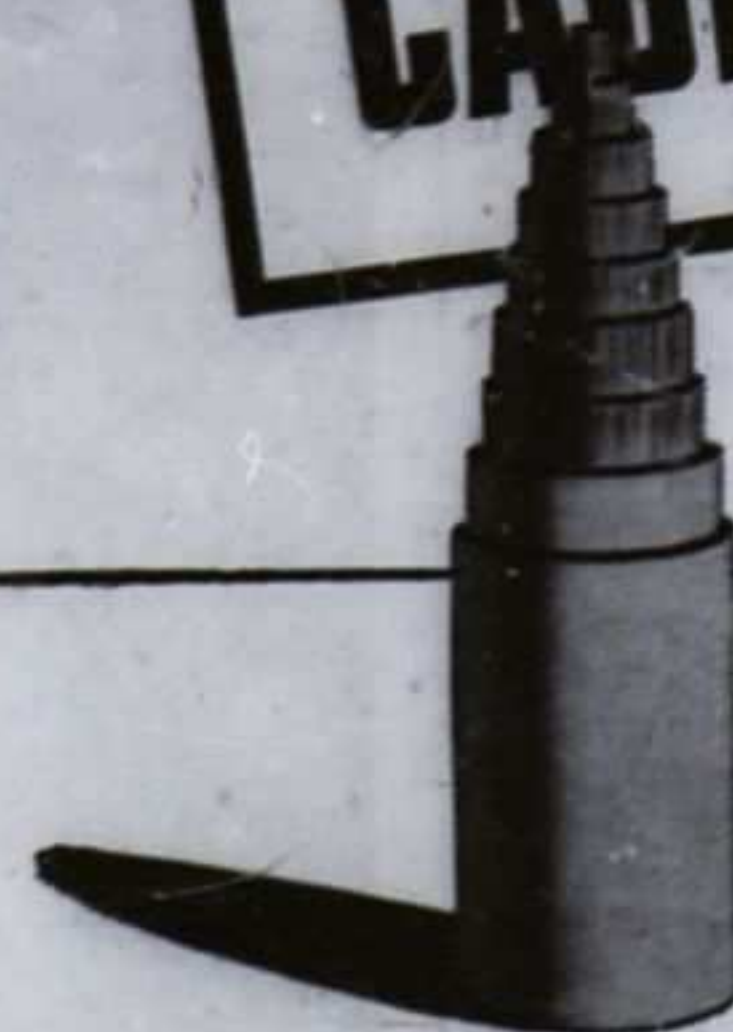

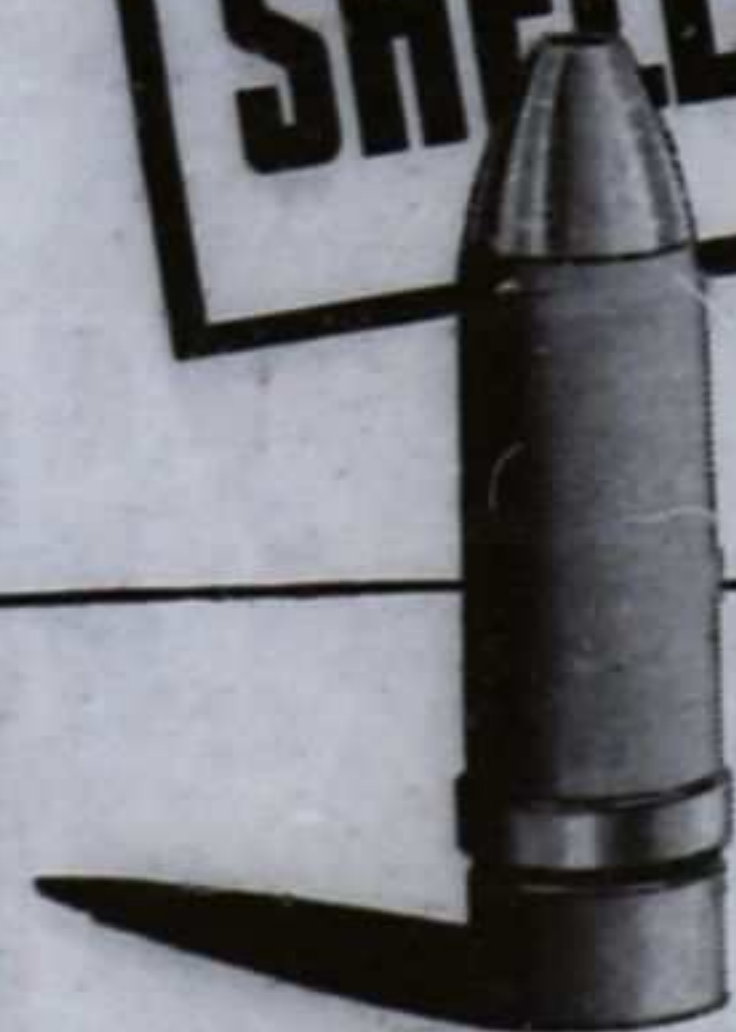

He then moved to Hamilton and despite the fact that he was well advanced in years was connected with the Bank of Hamilton for some time. Then he retired and moved back to Grimsby. He was 86 at the time of his demise.

On Sept. 10, 1913, the Department of Public Works, Ottawa, called for tenders for the erection, on Livingston Ave. of a Precooling Plant. This plant is now the modern plant of the Growers Cold Storage and Ice Co. Ltd.

Just notes of Sept., 1913 — Jas Neke passed

SHELLS

CABLE

Unlimited demand...
limited supply!

Copper is needed for telephone cable.

But it is also required for snells, planes, communications equipment and other war supplies. This is true of many another telephone material, too.

There's just no alternative. Until victory, war needs come first. With reserves of telephone equipment at low ebb and almost im-

possible to replace, they must be rigidly conserved.

To all those applicants who are still waiting for telephone service, we can only say that we fully appreciate their problem. On our part we are making maximum use of existing equipment to serve as many people as possible.

We shall keep on doing the best we can with the telephone equipment obtainable.

On Active Service

Giving Wings to Words

A. C. PRICE

Mainly For MILADY

What Price Brides?

The Canadian Price Controller has had problems but none like his counterpart in Durban, South Africa, who had to give a decision on the price of brides. A native complained that his prospective father-in-law was taking advantage of war shortages by boosting the price on the girl from \$88 and seven cows to \$128 and seven cows. There was, of course, no price ceiling on brides and the controller refused to fix one, but the would-be bridegroom none the less was sure there ought to be a law against rapacious fathers-in-law. Price control here has of course, had a great deal to say about the cost of the bride's costume and the rent the happy couple pay, to mention only two of the cost items of marriage.

Inflation Battle Lost

Housewives who go marketing in Chungking find, though the battle against the Japs is still undecided, the battle against inflation has definitely been lost. It is nothing for a woman to spend 200 Chinese dollars filling her market bag. No matter how many dollars she has she is likely to get nothing at all if she isn't in the market by 7 in the morning. Here is what one Chinese shopper, according to a letter from Chungking, got for \$200, after a lot of careful haggling and haggling. Passing up bamboo sprouts as too dear, she first bought 11 ounces of brine-soaked spinach to give the rice a tang. Fish also was too dear. So she bought snails. Her biggest investment was in eggs, 20 of them, and she picked each up and held it to the light. Her whole \$200 would not have bought her family enough meat for dinner, and to increase her protein purchases she added crabs to the snails. What she bought filled only a small basket, but it had to last three dinners along with the rice she had at home.

Stockings Of The Future

If silk stockings return again, they will be more appreciated than ever, for, according to pre-ghimases of the future given at a recent convention of the American Chemical society, it is possible to make stockings that will not run. There will also be suits that will not wrinkle when they are wet and woollens that will wear three times as long without any change in the texture of the cloth. The chemists are not going to forget men entirely, for they promise them trousers that will not shine no matter how sedentary a life the wearer may live. Every woman knows how annoying it is to have cotton thread break. That annoyance will be a thing of the past when the chemists add, as they say they can, 50 per cent. to the tensile strength of cotton fibres by coating them with a recently developed solution. At the convention, it was said, too, that 10 per cent. of the sawdust now wasted would produce plastic parts for 4,000,000 automobiles and would supply acetic acid to provide nylon for 130,000,000 pairs of women's stockings. In short, the post-war future as far as feminine hosiery is concerned is exceedingly bright.

Sensible Care Means Longer Wear

"Women have been conservation conscious for some time now", said a tailor the other day, "but while they know how to get the most out of a favourite dress, woollen jacket and the countless other items which make up a woman's wardrobe they don't always realize that men's clothes need just as much care and attention."

Here are his suggestions for common-sense care which will result in longer wear:

The wool fibres of suits will be given a chance to 'relax' and spring back into shape if suits are worn on alternate days. If properly hung on a hanger in the clothes cupboard they will not require as frequent pressing.

Regular brushing is a 'must'. This will remove grinding dust particles which are injurious to cloth. A suit which is dusty will wear out more quickly for the dust fibres out into the wool fibres, say the experts.

If suits are pressed at home, the damp cloth between the fabric and the iron is a must. It prevents possible scorching of the wool fibres and also prevents shine.

Spots should be removed as soon as possible. The longer a spot remains on a suit the harder it will be to remove. Pressing a suit before all the spots have been removed is dangerous practice, as under heat, a spot is liable to become a permanent fixture.

In conclusion this tailor claims that too frequent cleaning is almost as bad for a suit as too infrequent cleaning.

STACK OF DISHES and WATER WON'T RUN OUT!

POUR IN GILLETT'S!

WHEN THE GREASY MESS that clogs your drain pipe meets up with Gillett's Lye it's a goner! Fast! In no time water's running freely again. And remember drains stay clear when you pour in Gillett's full strength once a week.

Use Gillett's in solutions to get floors spotless without hard scrubbing, to lighten the load of all your heavy cleaning. Grandest way yet to have a clean, sweet-smelling house without breaking your back. Ask for Gillett's today.

New Ration Book Issue Next Month

Twenty-Four Million Coupons a Week Are Used By Purchasers In Dominion — Follow Instructions.

That new ration book with the pink cover which you will obtain the week of October 14 to 21 will mark the fifth time you are sharing in a big wartime plan that starts in the tea plantations of India, the coffee regions of Brazil, sugar cane districts in the sunny caribbean area and Canada's own dairy farms. Every time a Canadian housewife has a coupon detached in her food store for some rationed commodity, whether it is tea, coffee, sugar butter or preserves, she is completing a transaction that started in one or other of these lands separated from each other by thousands of miles.

At least twenty-four million coupons every week, or four million each of the six shopping days, are detached from consumers' ration books. A lot of coupons and a lot of work! Yet Canada's rationing system is the simplest in existence: a system of share and share alike, at controlled prices. Ration Book 5 will be good for 50 weeks instead of 26 weeks as in the case of Ration Book 4. With the end of the war in sight, it was easier to look ahead 18 months. It takes six months to plan and prepare a ration book, and this time it was possible to get a more reliable picture of what commodities would be remaining on the ration.

To obtain Ration Book 5, do this. Find out the address of your nearest distribution centre and the hours it will be open by watching The Independent for the announcement. Before setting out, fill in both the back and front of the stub

of the "K" coupon sheet in Ration Book 4. If any member of the family is under 16 years of age write his or her age after the name. Do not tear the sheet out. It must be intact when you present the book in order to get the new one.

When you get Ration Book 5, guard it carefully. It must last 50 weeks, so don't risk having the cover or any of the coupons detached or damaged.

The ration book is Canada's biggest printing and mailing job. Yet, with every item figured in — the work, paper, printing, shipping and distribution — the amount spent on it is unbelievably small. Ration Book 4 cost only one and seven-tenths of a cent a copy from start to finish.

UNDERWEAR QUOTAS

This year's quotas on children's underwear are in most cases substantially higher than those for previous years. The quotas for children's vests, for example, are 32 per cent. higher than last year; for girls' vests 58 per cent. higher and for girls' panties 26 per cent. above those of last year.

SUGAR COUPONS EXPIRE ON DECEMBER 31st

Housewives who don't use all their "F" coupons for purchasing canned sugar have until the last of the year to turn these coupons into preserves coupons at their local Ration Board. Canning sugar coupons are valid until December 31.

Next to block-buster the most devastating thing is for the neighborhood kids to invade the flower garden while playing.

THE MIXING BOWL

By ANNE ALLAN

Hydro Home Economist

Hello Homemakers! Your heart would like to send a Christmas box of carols and peace and hearth-fire if possible. However, a parcel of home favourites will kindle courage and happiness in the armed forces.

The overseas gifts for Christmas should be sent before October 15 this year to ensure delivery before Christmas. Eleven pounds (including packing material) may be sent to any members of the allied forces in the United Kingdom, Iceland, or on His Majesty's ships and His Majesty's Canadian ships abroad. The rate for mailing is twelve cents per pound. The complete address is necessary. If the actual address of unit is known, give the full postal address. If the unit is out of England, add to the rest of the address B.E.F., c/o Army Post Office, England. Remember, that the authorities have the right to confiscate a parcel if the contents are not carefully described and a parcel is returned to you at your expense when addressee is not located unless you give an alternative address.

Overseas Gifts

The 100% popularity prize goes to pictures from home, pictures of grandma, the baby, Scrammer the dog — everyday pictures of you and the family.

Sixty-five per cent of the navy rate a Bible as a grand gift, especially ones with both Old and New Testaments. Small, inexpensive editions of exciting stories are almost "eaten" up by the boys and girls in uniform.

Windproof cigarette lighters are important items if they smoke, but don't mail the lighting fluid or

matches — you may blow up the ship . . . you may send flints and pipe cleaners, sewing kits, leather wallets with insignia (not just any wallet), shoe brushes, razor blades, soap, tooth powder, hair tonic and writing pads and envelopes all come in handy.

Canned goods, especially soups and concentrated foods, canned fish, waxed cheese and packaged crackers are suitable to send great distances.

Of course, the Christmas parcel is really complete when you are able to send a fruit cake — well packed — cakes and cookies that mash up or chocolates that melt are "not so good gifts."

It's so hard to give a blow-hard the air.

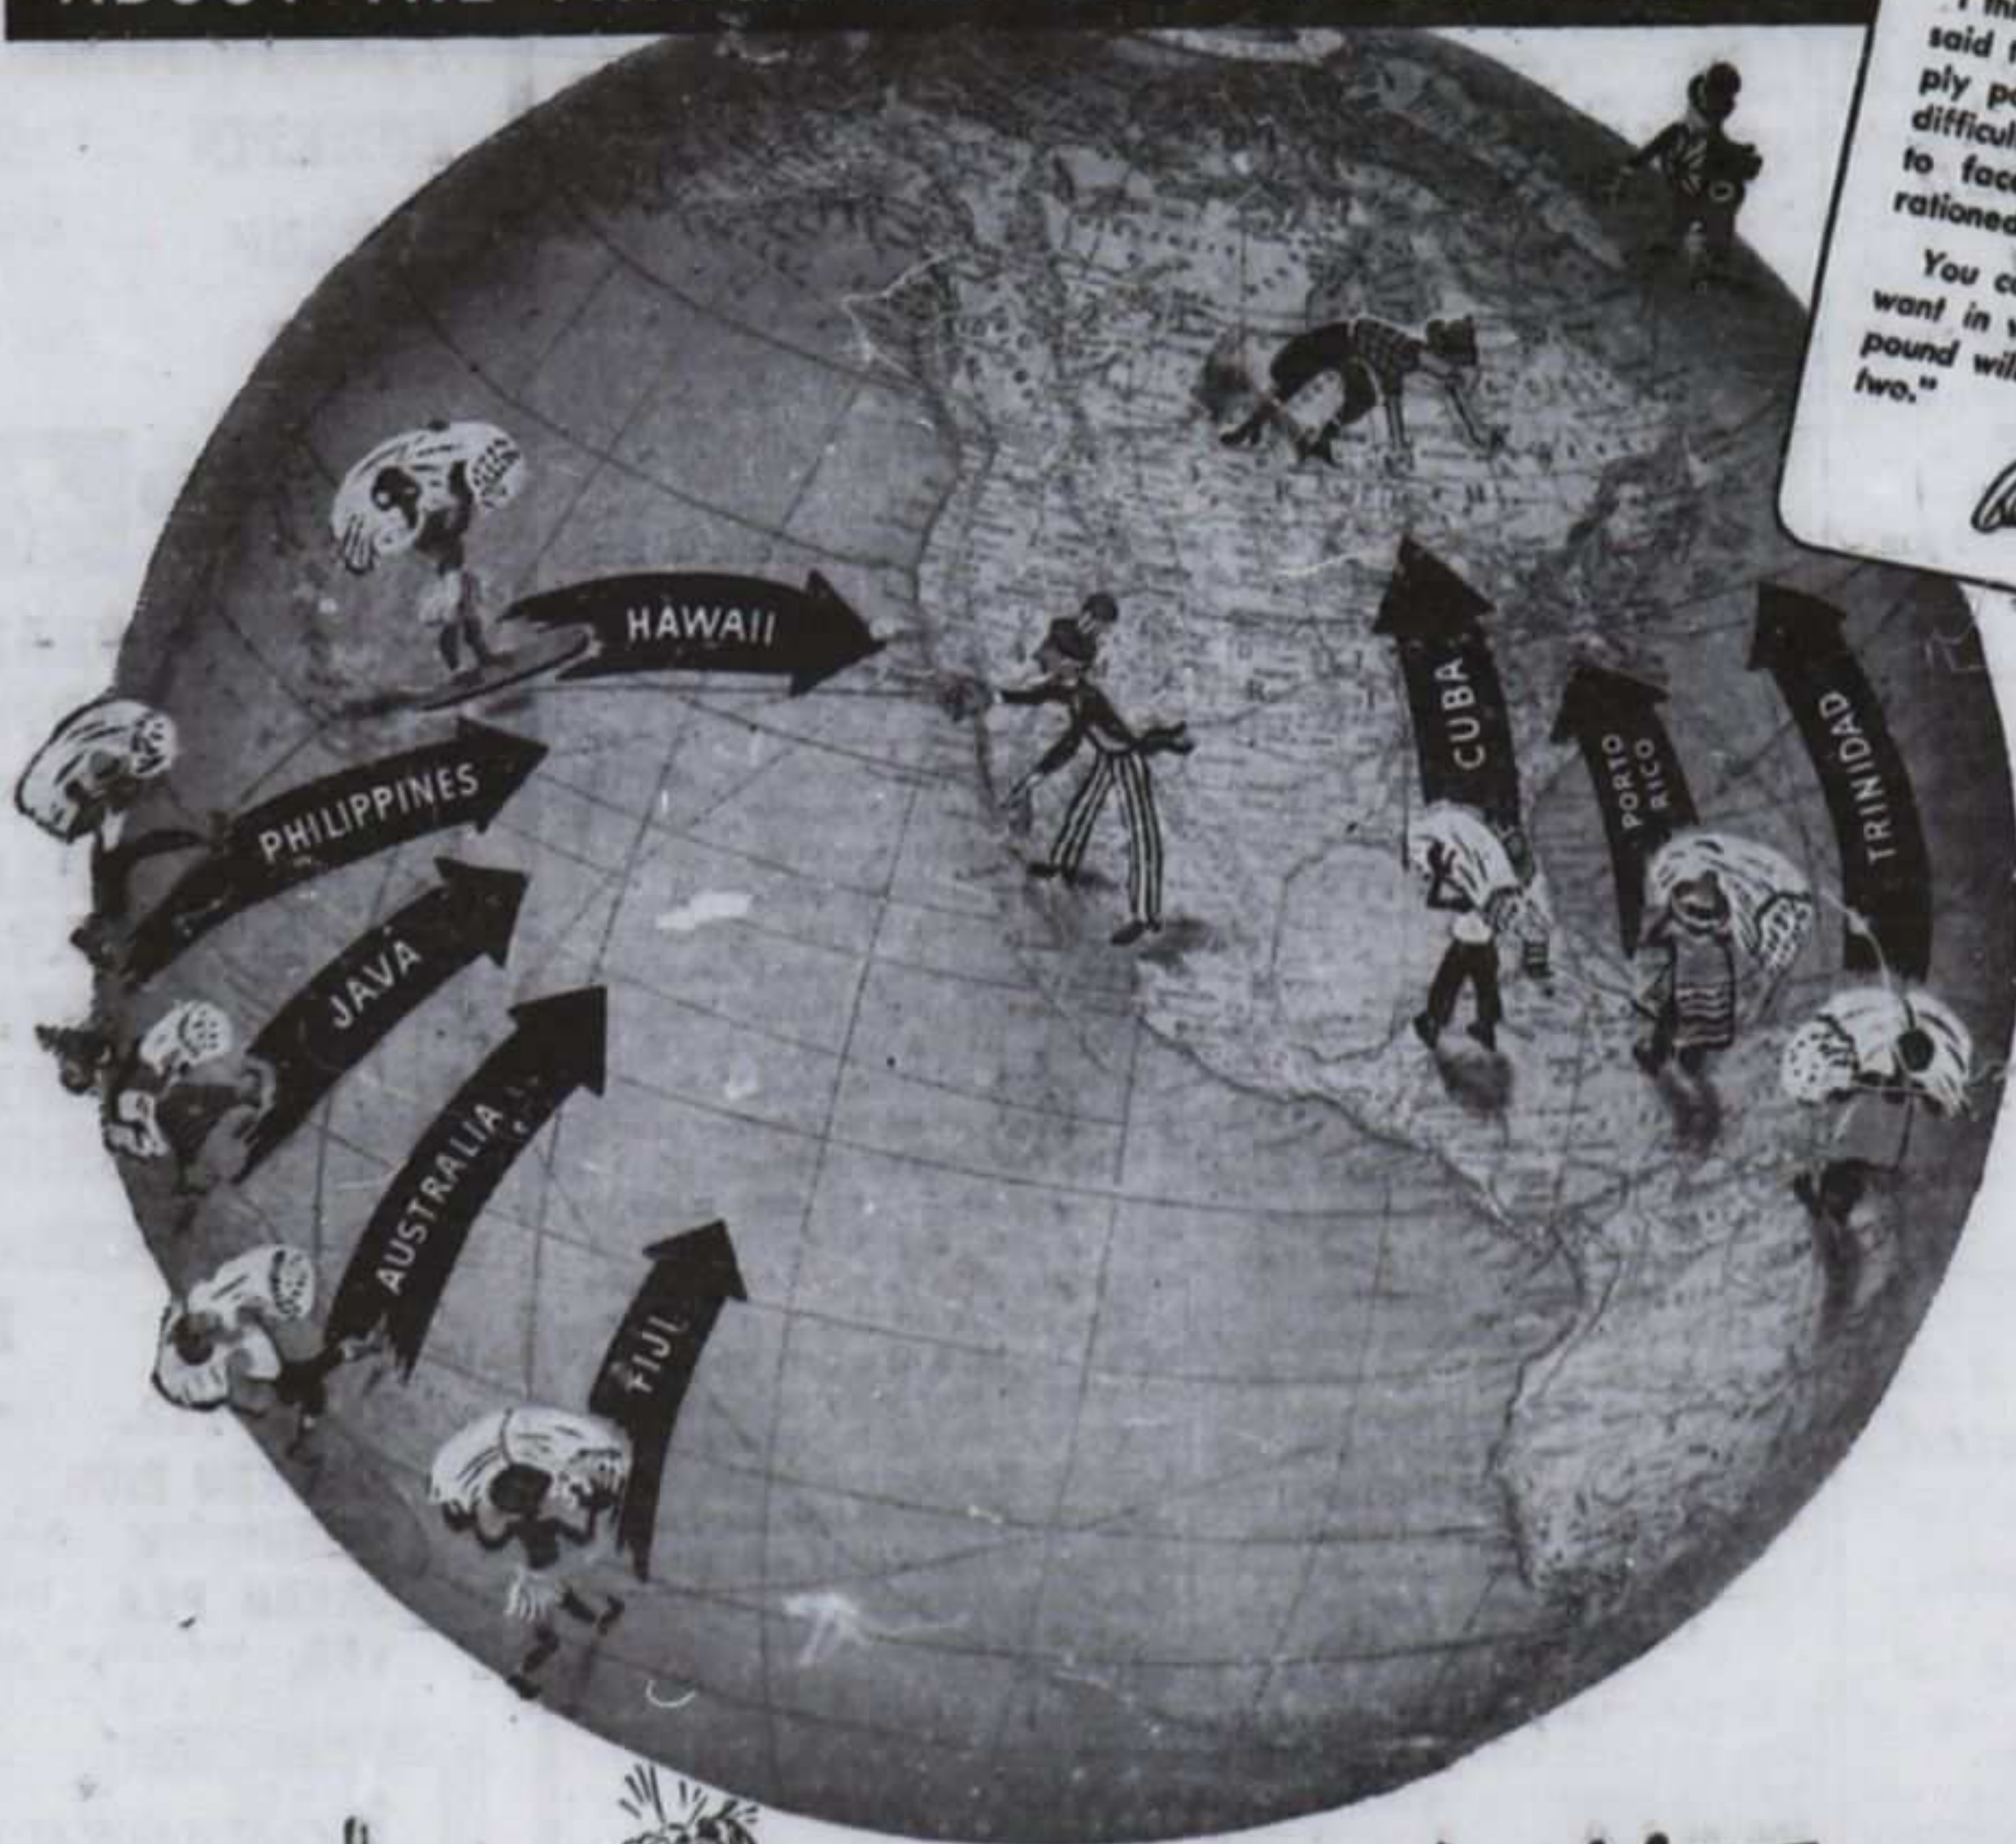

FOR SUPERIOR BAKING RESULTS

Leading Cooking Experts recommend it

Costs less than 1¢ per average baking

ABOUT THE THINGS YOU BUY IN WARTIME...

"I think it can be safely said that the sugar supply position is the most difficult situation we have to face today in any rationed commodity. You can't get all you want in wartime. If one pound will do, don't buy two."

The sugar situation is NOT sweet

FOUR-FIFTHS OF THE SUGAR CANADA CONSUMES HAS TO BE IMPORTED

This map shows where Canada, Great Britain and the United States got their sugar in the good old days of peace. Our three countries take practically all the exportable sugar from these major sugar-exporting areas.

But supplies have either been cut off by enemy occupation of the country—as in the case of Java and the Philippines, or their production radically reduced by shortages of workers, as in the case of Hawaii, Porto Rico, Australia, Trinidad, Fiji.

The war has brought some unusual demands on the United Nations' sugar pool. Vast quantities have been taken for making industrial alcohol used in the manufacture of synthetic rubber (tires, etc.) as well as T.N.T. and smokeless powder. For instance, the explosive to fill five 16-inch shells requires as much sugar as

THE SUPPLY IS SHARED

All sugar supplies are pooled and under the control of the Combined Food Board of the United Nations, which allots supplies to Canada, United States and Great Britain on a uniform basis.

At the time of "Pearl Harbour" the United Nations had a reserve stock-pile of about 3 million tons, but for the last 3 years we've been using more than has been produced—and dipping heavily

Even the production of beet sugar in Canada and the United States has been drastically cut by labour shortage. In both countries the '43 sugar beet crop was forty per cent less than in '41. Social Events — Personals — Organizations — Club Activities

Col. K. A. Ramsay was home over the weekend.

Sgt. Ldr. Hugh and Mrs. Merritt, Ottawa are home on this week's visit.

Mrs. Frank Hitchman, Mrs. David Cloughley, and Mrs. Lawrence Hyatt, are at the Royal York Hotel, Toronto, to attend the Grand Chapter Session of the Order Eastern Star.

Thos. Newton, Aurora, spent Sunday with his father Jack Newton, Oak street.

Mrs. Isabel Fairweather has returned to her old position in the A. & P. Store.

P.O. Bert Norton, stationed in the Bahamas, has been promoted a Flying Officer.

Tpr. Reg. Turner has returned to Borden after spending his furlough at his home here.

Mrs. Howard R. Elliot is spending a month visiting friends in London and Alisa Craig.

Mrs. Walter Clemes and son of Sarnia are visiting with Fred and Mrs. Schwab, Bolton street.

Wm. H. Dousett, St. John's, Que., spent the weekend with Geo. and Mrs. Dousett, Robinson street south.

Capt. Glenn and Teddy Rae of Toronto were in town on Sunday for the St. Andrew's anniversary services.

L. Gordon and Mrs. MacBride celebrated the 34th anniversary of their wedding, quietly at their home on Adelaide street on Sunday.

Rev. Dr. and Mrs. Charles and Joseph Potter have closed their summer cottage at the Beach and returned to Brooklyn, N.Y. for the winter.

Crown Attorney E. H. and Mrs. Lancaster and Mrs. E. A. Lister, St. Catharines, attended the St. Andrew's anniversary services on Sunday.

County Registrar W. D. and Mrs. Fairbrother, Beamsville, were the guests of the Hartland Dicksons on Sunday while attending the St. Andrew's Services.

L.A.C. Gerry Kemp, R. C. A. F., Centralia has been home for a week with his parents Lt.-Col. and Mrs. Fred Kemp, Nelles Boulevard. He graduates in November.

John and Mrs. Gilmartin and their daughter Mrs. Marjorie Walsh and her three daughters of Hamilton attended the anniversary services at St. Andrew's.

Akner and Mrs. Walts, of Hamilton, well known summer residents of Grimsby Beach, celebrated the 32nd anniversary of their wedding at the home of their daughter Mrs. Wm. Fletcher in Toronto on Sunday.

Among those from out of town attending the St. Andrew's anniversary services were, Miss Kathleen Ball, Niagara-on-the-Lake; Miss Helen Nelles, Niagara Falls; Mrs. John Pettit and daughter of Burlington; Mr. and Mrs. Langford Robinson of Hamilton; Mr. and Mrs. F. M. Robinson and Lieut. Robinson of Dundas; Mr. and Mrs. Thos. Gibson, Dundas; Harry and Mrs. Walker and Jim, Mary and Ruth of Niagara-on-the-Lake; Dr. Ben and Mrs. Rogers, Hamilton.

Girl Guides

Registration for all Guides of the 50th and 57th Companies, will be held on Tuesday evening, October 3rd, at 7:30, in Grimsby High School. Any girl wishing to become a Guide, will register at the same time. Uniforms unnecessary.

Mrs. William Pearcy, Holiday's Cove, W. Va. is holidaying with her parents, Marcus and Mrs. St. John, Mountain street.

Guests of Mrs. Randall Nelles Road, for the St. Andrew's anniversary, were Mr. and Mrs. Geo. C. Hoshal, Toronto.

Miss Margaret Danbrook of Medicine Hat, Alta., has returned home, after spending two weeks visiting with Mrs. C. J. Em- whose friendship dates back to their school days.

Mrs. McAlonen, Robinson Street, south, has just received word of her nephew, Gordon Crawford of Dauphin, Man., was killed in action in France two weeks ago. A brother F. O. Kenneth Crawford, R.C.A.F., was killed on January 2nd of this year.

Marriages

WILSON-LAMBE

Miss Gladys Yvonne Sylvia Lambe, daughter of Mr. and Mrs. R. R. Lambe, Toronto, and Mr. Ross Hillyard Wilson, Toronto, President of Grimsby Women's Club, son of Mrs. Wilson and the late W. H. Wilson, were married in St. Andrew's-by-the-Lake, Centre Island, Toronto. Rev. L. L. Churcher officiated.

The bride wore a princess gown of brocade, English imported veil held with orange blossoms, and carried red roses. Mrs. Dorothy Lambe, mother of the bride, wore gold shoes with matching hat; Miss Winifred Ryrie, in sea green, and Miss Arden Lambe, in powder blue, were the other attendants. All carried matching nosegays. Mr. William J. Ryan of Grimsby was groomsmen, and the ushers were Mr. William Shaw and Mr. G. Herbert Lambe.

I.O.D.E.

The September meeting of the Lincoln Loyalist Chapter, Imperial Order Daughters of the Empire, was held in the Chapter Rooms on Monday evening, September 26th, at 8 o'clock.

The meeting opened with the prayer of the Order and salute of the Flag, followed by one minute's silence in sympathy with our members who have lost dear ones.

The report on the Tag Day was given by Mrs. Warner, who advised \$120.00 had been collected. The report of the fruit collected for Christie Street given by the Secretary stated that 15 hampers, 22 quart baskets and 72 6-quart baskets were received, also cash donations of \$4.00. A letter of thanks was read from the Asst. Matron of Christie Street Hospital.

Mrs. Stevenson gave a report on the work planned for the Educational Committee, and advised they would have a penny sale October 22nd.

A new member, Miss Gray, Calder, received her affirmation and was welcomed into the Chapter.

The report of the War Services Committee was given by Mrs. Morrison. Twenty-four nursery bags have been received and it is hoped that all nursery bags will be brought in promptly as the time is short for sending these away. Four Christmas boxes have already been sent out to the India Command and everything is ready for the remainder of the Christmas boxes. A donation of \$125.00 has been received from the Savings Committee, and \$10.00 from Mrs. Moore. A beautiful bedspread has been donated for which tickets are to be sold. Mrs. Leckie read a letter of thanks for cigarettes sent to our adopted ship.

In reporting on Home Frontality Mrs. Bromley advised the R.A.F. had moved from Moose Hope. There had been nine visits then entertained during July or seven days, and in August seven men for sixteen days. Letters have been sent out to W. brides. One Canadian wife of an R.A.F. officer was entertained in town and made good progress in health while here.

Mrs. Lottin, the Canadianization Converter advised she had framed and give a certificate to a new Canadian. He had held a number of New Canadians with tax forms and their children visit in her home.

A Loyalist meeting is being planned for October.

Women's Institute

The September meeting of the Women's Institute was held at the home of Mrs. Hardman, on Maple Avenue. The President, Mrs. Geo. Warner, presided. The roll call was answered with reasons for youth education. Mr. W. E. Knott-

chel of St. Catharines was the guest speaker, and gave a brief outline of the work done in Lincoln County on behalf of the blind, and hoped that we would all support their tag day on the 30th of September.

Mrs. Aikens gave an interesting talk on Youth Education. Mrs. Stevenson read a grateful letter of

thanks from our soldier boy for the parcels.

The meeting closed with the National Anthem, after which the Committee served an enjoyable lunch.

The next meeting will be held at Mrs. A. Stevenson's 23 Oak Street, on Tuesday, October 17th.

Obituary

MRS. ANNA W. SEAMAN

Friends will be deeply grieved to learn of the passing of Mrs. Anna Wise Seaman, whose death occurred Saturday afternoon, at the family residence, 42 York street, St. Catharines, after an illness of about one week.

The late Mrs. Seaman was born in England and came to this country thirty-eight years ago, making her home at Grimsby, until ten years ago when she went to St. Catharines to reside.

Deceased was a member of St. Andrew's Anglican church, Grimsby. She was a great knitter, working very hard knitting socks for the forces during this war. Her husband, Samuel H. F. D. Seaman, predeceased her nine years ago.

To mourn her passing, she leaves one son, three daughters and one step daughter, Harry Seaman of Holtville, Calif., Winnifred Seaman of Toronto, Eva E. (Dolly) and Hazel Seaman at home, and Mrs. James Charlton of Marigold, B.C.

A private service was held at the family residence, 42 York St., Tuesday afternoon at 2:30 o'clock. A public service was held at 3:30 o'clock at St. Andrew's church, Grimsby. Rev. J. Allan Ballard officiated. Interment took place in St. Andrew's Churchyard.

Casket bearers were: H. P. Wilson, Harry Gavins, St. Catharines; D. E. Anderson, C. L. Shelton, George Spencer and J. Orion Livingston.

"Greater Love Hath No Man"

Lieut. Philip R. Harris, son of Mr. and Mrs. R. H. Harris, 13 Oak street, Grimsby, and whose wife is the former Miss Alice Simon, of Fredericton, N.B., reported to have been killed in action in France last week.

Peaches Are Dear In British Isles

Lt.-Col. Lampard Of St. Catharines, Home On Furlough Tells Funny One About Fruit Situation.

Lt.-Col. Lampard of St. Catharines, member of the firm of Seymour and Lampard, Grimsby Town solicitors, returned home from overseas on Sunday on a three week furlough.

In talking to the St. Catharines Standard, Col. Lampard remarked: "Another impression unforgettable to the home coming colonel was not only the glorious sunshine of a perfect September Sabbath morning, but to come home during an abundant harvest of peaches. Fresh fruit has been mighty scarce all along in London, and the prices fantastic. In that connection, there is a current story, where a Yank soldier bought two peaches in a fruit stall. The price was seven and six each. The soldier tendered a quid for the two peaches, told the shopkeeper to keep the change and remarked: 'I stepped on a grape on my way in.'"

Peach Growers Pay Attention

A peach tree in the garden of Mr. Owen Bridges, of Albert street, Bury St. Edmunds, England, has borne a record crop of 612 peaches. Locally peaches are being sold at 3s. 6d. each, which would make the value of the tree's yield over £100.

V-Day Services In The Churches

Owing to the fact that there is not a building in Grimsby large enough to hold all the residents of this district, who should and undoubtedly would attend one large V-Day Service of Prayer, it has been arranged by Mayor Johnson and the Ministers of the town that on that memorable day, services will be held in all the churches in the evening.

Real Estate

James McQuay, who recently sold his fruit farm on Robert's sideroad to Mr. Mockery of Gainsboro township, has purchased the Lewis Klock house and lot at 30 Murray street. Mr. Klock has purchased a farm in South Grimsby. Jas. I. Theal handled the deals.

Through the Charles J. DeLaPlante Agency, Lloyd Knox has sold his two story frame house and lot on Park Road, Grimsby Beach to Mr. Eric Garnham of Central Caracaus, Cuba. Mr. Garnham and family will move to their new home on October 15th.

Cubbing

Thirty-three enthusiastic cubs were on hand to greet the old wolves at the opening meeting of the 1st Grimsby Pack held last Friday at the Public School Grounds. Following the Grand Howl and Roll Call games were enjoyed and plans were made for a very active season. This Friday meetings will be resumed in the High School gymnasium and all cubs are asked to be present promptly at 6:30 p.m.

The two-listed man is the one who knows how to knuckle down to a job.

Treasurer,
Township of North Grimsby,
June 17, 1944
17 Sept. 28

SPORTOLOGY

(By Bones Livingston, Sportologist)

KINGS EVEN UP SERIES—

Clare Rushton's Intermediate 'C' entry in the O.A.S.A. are back in the running for the Ontario Championship as a result of their win over Bata Shoe Co. team, on Saturday evening last at the local diamond. The final score was 12-to-7 and all of the large crowd that was present left the field with the conviction that Peach Kings will give a real effort in the third and final game which was played at Oshawa yesterday.

Bata opened the scoring in the very first frame and managed to push three runs across the plate by virtue of two walks and two clean hits. In Grimsby's first turn at bat they were unable to secure a marker and for a few moments it looked as if Bata were going to repeat their victory of last week. However in the second innings Stacey, the visiting moundsman developed a case of wildness and issued five passes to first. This, plus two beautiful bunts laid down by Lane and Ham Fox was more than sufficient to bring in five runs.

From this point on Grimsby were never headed and played near errorless ball. Both pitchers were touched for seven hits but Belcott on the mound for Grimsby retired thirteen by the strike-out method while Stacey only managed to get a third strike past three of the Grimsby batters.

Austin and Aquino for the visitors were best with the willow earl securing two hits while for Grimsby Ham Fox managed to duplicate their effort. The fielding features were provided by Lane in the Grimsby outfield with a leaping one-handed stab of what was surely labeled as a home run and the marvelous throwing of Peacock in centre field for the visitors who managed to whip strikes to the plate from deep centre with the greatest of ease.

Grimsby	1	2	3	4	5	6	7	8	9
Bata	0	5	2	0	1	0	0	4	x
Batters—Grimsby, Belcott and Schwab; Bata—Stacey, Ellis and Aquino.									

Umpires—Plate, Elliott; Bases, Rowdon.

WITH THE — TRUNDLERS

Peach Queens' Bowling League

Peach Queens open their league tonight with 16 full teams and the girls are confident of having a better league than ever. This year they have two full nights a week, Thursday and Friday instead of a full night and two split nights as in other years.

Cotton stockings will never become popular with women. A woman knows her legs don't look pretty in cotton hose.

GRIMSBY BOWLING LEAGUE

Grimsby Bowling league got under way for the winter on Monday night and allocations are for a great season of sport. In the opening game Dag. Hartnett buried his flashy Gas House gang against Bill Fisher's Buchers, while Father O'Donnell led his St. Joseph lads into battle against Charlie Norman's Pirates. Gas House surprised the multitude by arming out in new uniforms the gift of the Grimsby Natural Gas Co. They are greyish-blue shirts with maroon ties. Each player's name is embrodered on the pocket of the shirt and on the back are the words Gas House. Not to be outdone Bill Fisher's clever welders showed up dressed in brand new white butcher aprons. There are 20 teams in the league again. I hope things work out better than last year with such a large number of teams. This year there are certain defined rules that have been definitely placed on paper which should eliminate a lot of squabbling. From my crow's nest there is trouble in the offing for some of the players and teams if they continue their tactics of the past two seasons for they will run foul of the printed rules as sure as shooting.

HOSPITAL JOB

separate food preparation, all of which is enclosed in glass, through which the proud father may view young Canada.

The general services are laid out to serve a fifty bed hospital, which the authorities feel will ultimately develop. This includes operating room, delivery room, sterilizing and work room, X-ray and developing room and Dispensary, all served with hot water heating, with a separate steam boiler for sterilizing.

For staff quarters, the roof is being raised on the east, south and west sides. This will provide six bed rooms, staff dining room, bath-rooms, Doctors' quarters, storage and a nice sitting room, facing the lake. As time goes on, more space is still available for expansion.

Out of doors there is much work to be done, including sewerage, septic tanks, incinerator, store house, coal bins, etc., etc.

The project has come a long way toward fulfillment, which will be a great source of comfort to many to know that we have a Hospital of our own when emergencies arise.

Financing is not yet finished, so let's finish the job.

AUCTIONEER

J. W. Kennedy

ESQUIRE

Beamsville, Ontario

AUCTIONEER & VALUATOR

Licensed Auctioneer for the County of Lincoln; also for the City of St. Catharines. Commissioner for taking affidavits.

Phone 55, Beamsville or Grimsby Independent, Phone 28.

Planted a century ago to mark a pioneer's grave, this tree now covers the plot, and has all but swallowed the tombstone, in St. Andrew's churchyard.

life of St. Andrew's. Wreath placed by Mrs. George Marr, a direct descendant.

John Moore, whose name heads the subscription list of 1800, served during the Revolutionary War with the New Jersey Guards and later when that Corps turned its coat, with Butler's Rangers. Wreath placed by Lieut. Wm. Robinson of Dundas, a blinded hero of this war, a great-great-great grandson.

Col. Robert Nelles, who gave the land on which the church stands, he built the Manor, in 1798, which still stands, the oldest house between Niagara and the Bay of Quinte. He was the 1st Worshipful Master of the Masonic Lodge founded in 1799 and a member of the Legislative Council of Upper Canada for many years. He commanded the 4th. Lincoln Regiment and fought at the Battle of Queenston Heights. Wreath placed by Nelles Rutherford, Grimsby, a direct descendant.

Allan Nixon, Loyalist from New Jersey. His son Wm. is said to have been the first white child born in the settlement at "The Forty". He made the first tools and instruments of the Masonic Lodge.

Lt. Col. William Nelles, whose descendants still live on the land originally granted to the family, he was born in Palentine on the Mohawk in 1769, served in the War of 1812, and at the Battle of Lundy's Lane. Gave generously of land adjoining the Church and frequently served as Churchwarden.

Wreath placed by Mrs. Harry F. Baker, Grimsby, a direct descendant.

A historic exhibit was shown in the parish hall where afternoon tea was held following the decoration service. Included in the exhibit were many personal belongings of Rev. William Sampson, the first missionary, among them being: His dress coat, eye glasses, dental outfit, compass, crested silverware, etc. Original subscription lists for the church building, records of church accounts, deeds for the church properties bearing the seal of King George III, were also shown.

At the morning service, the rector, Rev. E. A. Brooks, presented a confirmation class of 19, they being: Donald Tracy, Boies Croft, Billy Betts, Robert Forester, Albert Mason, Michael Jarvis, Diane Sawyer, Jacqueline Sawyer, Ruth Cornwell, Janice Cornwell, Nancy Morton, Gail Morton, Barbara Pope, Marjorie Howorth, Helen Slade, Doris Mason, Joyce Marlowe, Alberta Fellowes, Shirley Croft.

After the confirmation the Bishop spoke very briefly upon the accomplishments of the pioneers and of the successive generations in establishing and carrying on the parish, emphasizing the help and assistance given the municipalities and the country by the generations. Bishop Broughall dedicated three gifts to the church, a silver chalice and Paten in memory of Mrs. Clara

Fairbrother, mother of Mrs. Hartland Dickson, Grimsby and County Registrar W. D. Fairbrother of Beamsville.

A silver Chalice and Paten in memory of Andrew Hamilton Pettit and Sarah Pamela Pettit, parents of Mrs. E. A. Lancaster, St. Catharines and grandparents of Miss Marion Pettit, Mrs. Hugh Whyte, Grimsby, and Crown Attorney E. H. Lancaster, St. Catharines.

A superfrontal in memory of Charlotte E. Gamble, a daughter of A. H. and Mrs. Pettit.

Very large congregations attended both the morning service and the Evensong in the evening and the attendance in the afternoon was also very large.

Assisting Bishop Broughall in the morning service were Rev. J. Allan Ballard, Rector Emeritus; Rev. E. Arnold Brooks, M.A., Rector, and the church wardens, Major H. F. Baker and P. V. Smith.

A very fine historical booklet, illustrated, of St. Andrew's has been compiled by Mrs. R. James Powell and Miss Harriet Walsh, and copies may be obtained from the Rector. At a later date this most comprehensive history will appear in the "Away Back When" column of The Independent.

JUST MESSENGER

and Wing Cmdr. Walsh hasn't seen her for years.

So this trip, between trans-oceanic planes, King's Courier R. H. Walsh was going to have a look at Canada's vineyard country.

Carrying documents from Canada to England, from England to Washington and all round the world doesn't greatly impress Wing Cmdr. Walsh. He "doesn't know what's in 'em, fortunately," he told a reporter.

As a matter of fact, this Kings Courier business isn't a thriller-boy. Just a little errand lad," he diller at all. "I'm just a messenger said. Wing Cmdr. Walsh stands around 6 feet tall. He looks typically British Army. His RAF battledress becomes him, too.

"You know," he chuckled "people send me out with notes for smokes and things and I deliver them. I get a kick out of that. It keeps me occupied."

And it's rather hard to draw the line where Wing Cmdr. Walsh is "kidding" and where he isn't. He did admit, though, that he has made as many as four trips a

month across the Atlantic; that he was in Canada last week, England in mid-week and Canada again before the week was out. "I just took my stuff over," he said.

He's Irish as "Paddy's pig," and "like all other Irishmen, never had two pennies to rub together." His public school accent belies the assertion. He went into the army as a gunner 40 years ago but "never did anything." Ask him about Burma and he'll tell you all about the Irawaddy Valley, though.

The war? The British "have their tails up now, but I think the Hun must have a sense of humor. The night the blackout was to be lifted a few nights went on but were quickly extinguished when a couple of bombers flew over, high up, and didn't drop anything. The damned Hun was probably trying to be funny. Our fellows are also exercising their sense of humor. They fly over and drop things the Hun doesn't like."

And with that, the "errand boy" with the chestful of ribbons swung aboard the train, said "cheerio" and was on his way. But the visit this time is "purely personal." Honest!

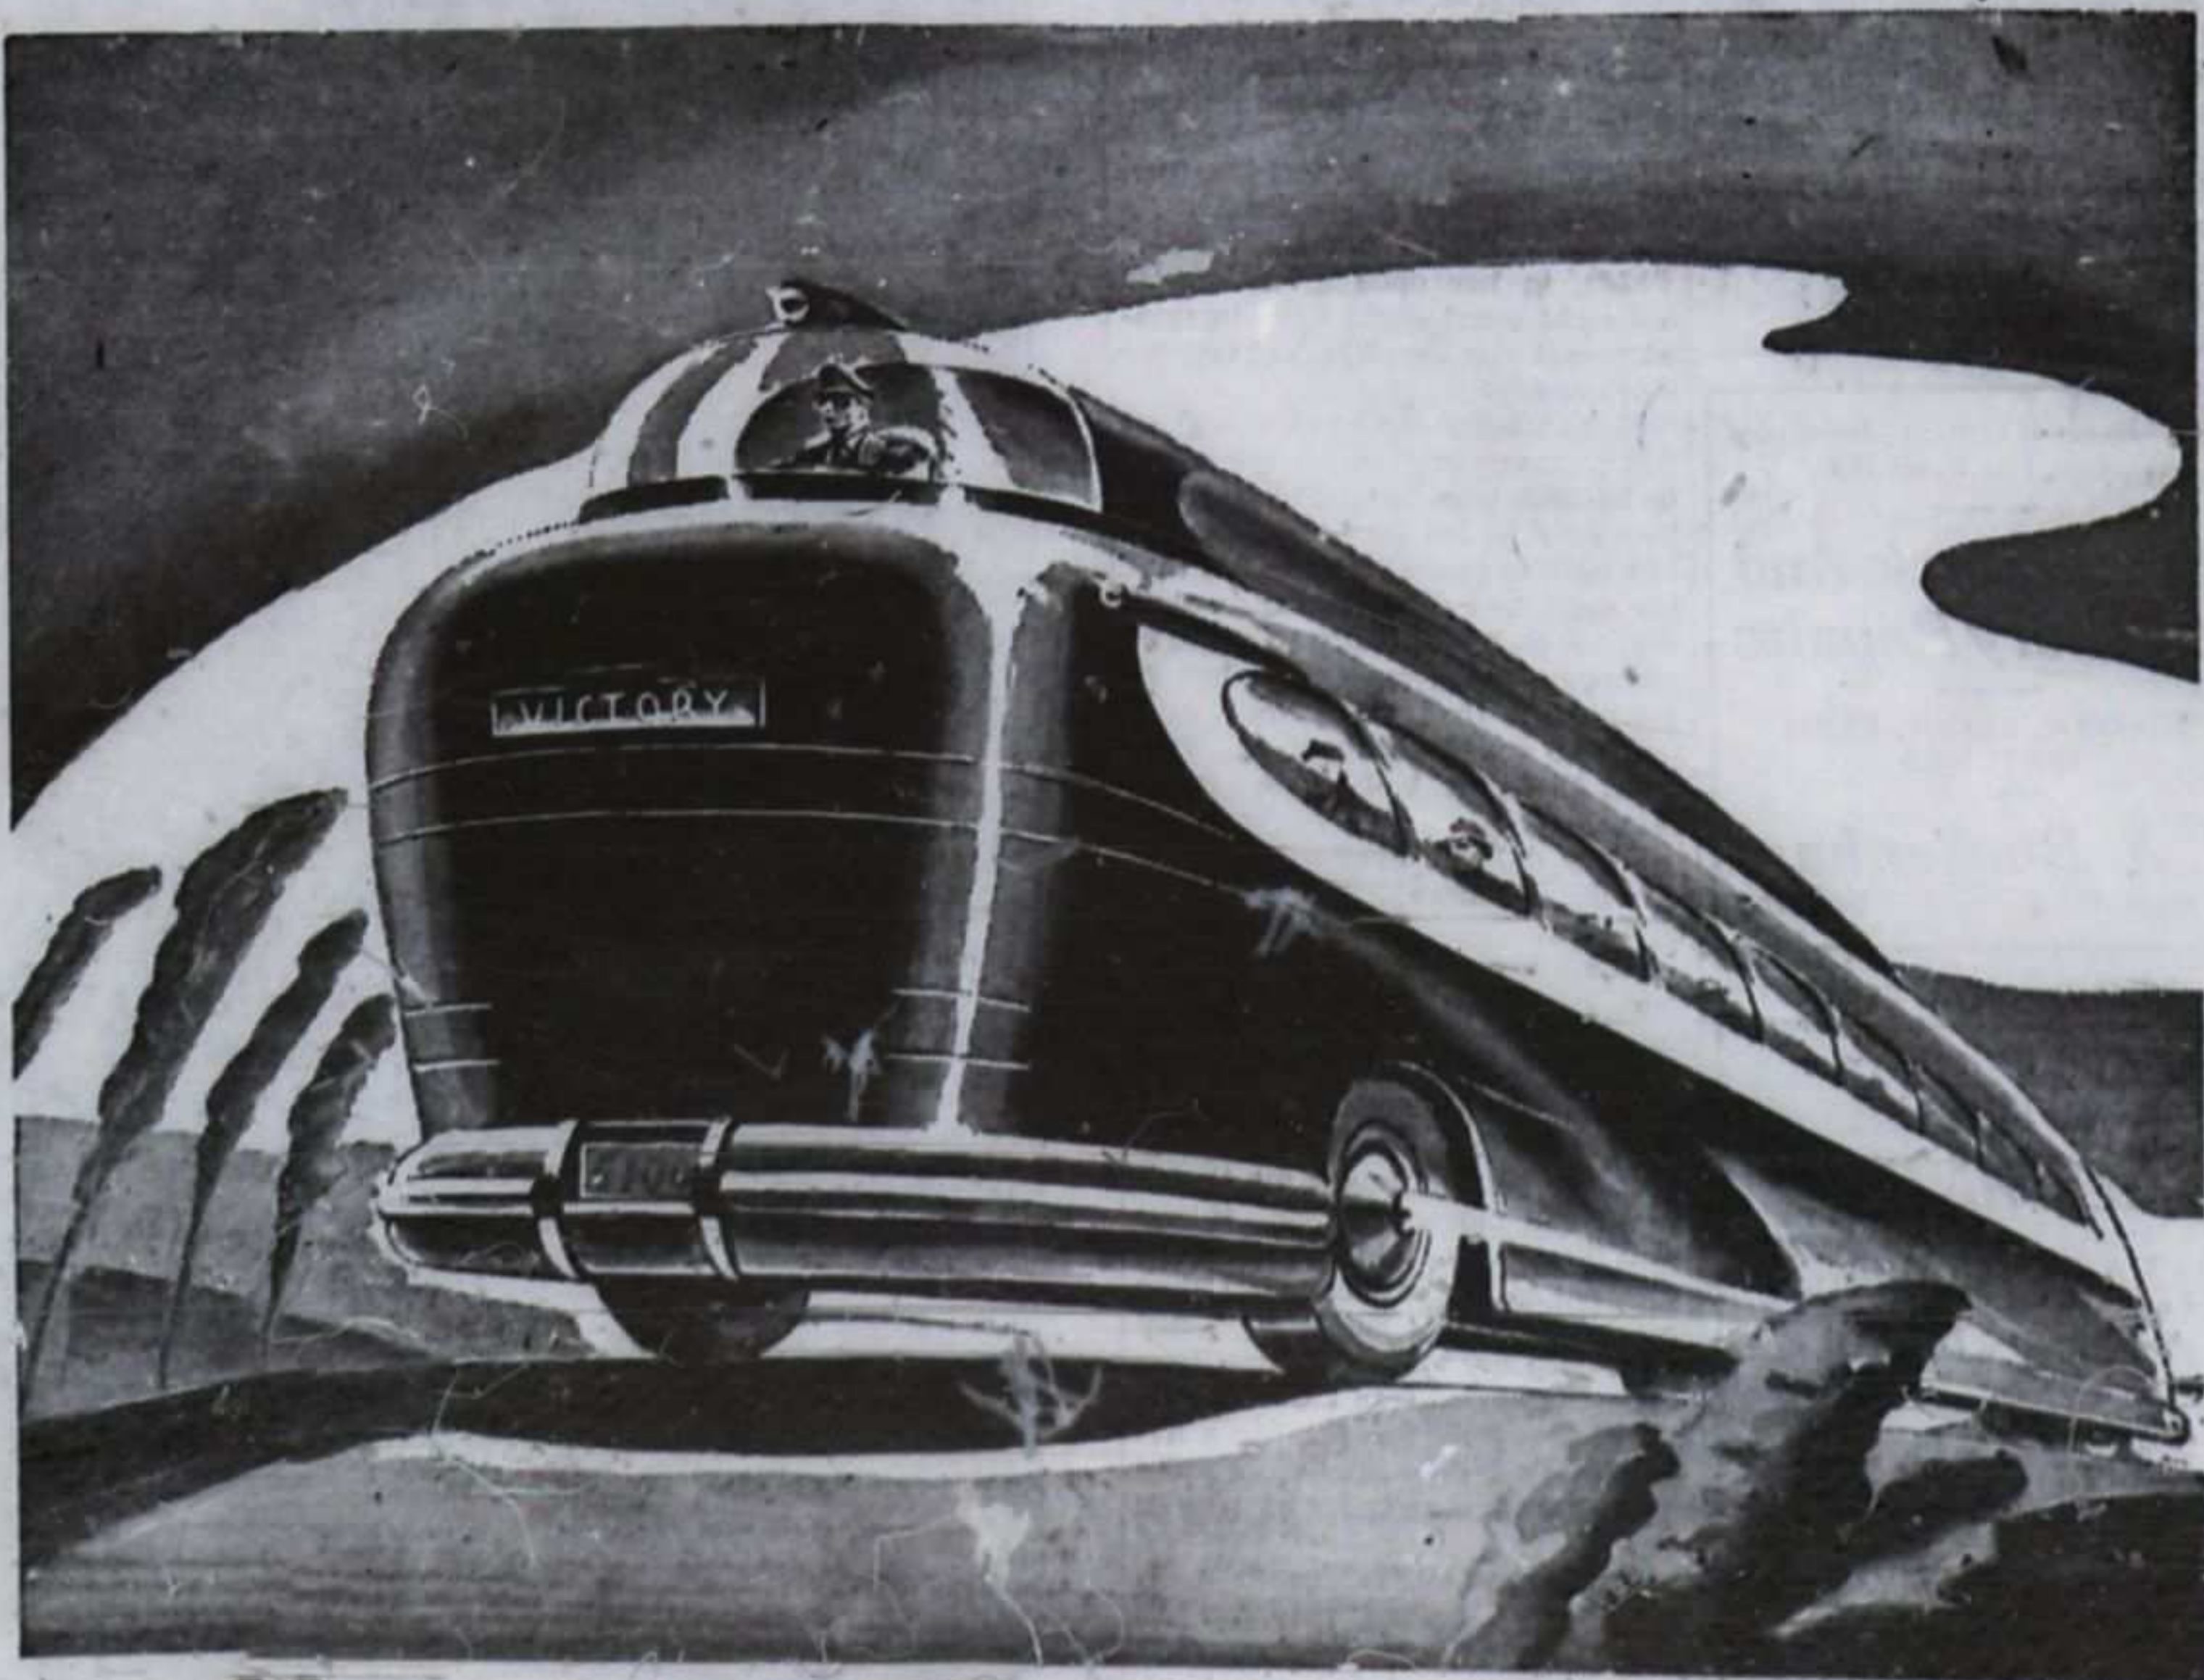

This will also be recalled as an era when everything was frozen except a summer's day.

Grimsby Public Should Donate Generously To This Worthy Cause — Many Afflicted Now Support Themselves.

The blind man behind the counter handed out two chocolate bars to the lady customer, took the twenty-five cent piece proffered him, rang the record of the sale on the cash register and handed back two nickels and three coppers. "You are better at that than at what you were doing when I saw you last," said the lady.

"I'm sorry," said the salesman, "but I'm afraid I do not remember your voice. What was I doing when you last saw me?"

"You were trying to fit me with a pair of shoes," replied the customer, "and you were not making a very good job of it. I'm afraid I got rather out of patience with you."

The man remembered. It had been his last day in the store. After ten years as an expert shoe salesman something had gone wrong with his sight. He had tried to carry on, but the maze of sizes and colours in women's footwear had been too much for his dimming sight. He remembered this woman, impatient, unaware of the difficulty smothering out the efficiency of the young man so clumsily waiting on her. She had grown tired of rejecting dozens of pairs of shoes which, in her opinion, no one in his right mind could have imagined would suit her. She had left the store annoyed.

It had been the clerk's last effort to make good under conditions he had not been taught to meet. He had gone to his manager and told him he was through—told him that his sight had gone so far wrong that he was practically blind. The manager was sympathetic, but he did not see that there was anything he could do about it. That night the man had gone home, beaten.

"How did you ever come to get into this business?" asked the lady customer.

"It's a long story," said the man, "but I suppose I can condense it into seven words: 'The Canadian National Institute for the Blind'. They taught me Braille, so that I could make notes and keep track of things. They taught me that a man could move and find things even though he could not see them. They set me up in business. They taught me how to handle it. They supervised my work—they still do. Without the Institute I would have been lost. Now I'm making a living again. I think perhaps I could ever sell you a satisfactory pair of shoes now."

"Don't you have to pay the Institute back for what they did for you?" asked the lady.

"Oh, no," replied the merchant. "The Institute does not make any charge for the services it renders to the blind. That's why it needs financial support from the public."

Yes, that is one of the reasons why the C.N.I.B. needs the money which it is now asking the public to subscribe. The annual campaign in Grimsby is now in progress. Make all cheques payable to The Canadian National Institute for the Blind.

Coming Events

RUMMAGE SALE

The Ladies of Alexandra Rebekah Lodge will hold a Rummage Sale at 17 Main Street, next to The 'A', on Saturday, September 30th.

Two Bad Fires In
Sout. Country

Early Wednesday morning, fire of undetermined origin totally destroyed the alfalfa grading plant and storage barn of the Ralston Purina Company, at Smithville, whose head office is at Woodstock. The mill was located just outside the village and employed half a dozen men. Loss is estimated at over \$10,000, as there was some expensive equipment in the mill. William Dickenson, local manager, said there were 40 tons of hay in the storage barn. Both Hydro and telephone lines were considerably damaged, and Frank Sutherland, district Hydro manager, believed that transformers beside the mill might also be damaged.

Fire which threatened to wipe out Wellandport village, 12 miles west of Welland totally destroyed the chopping mill and feed store of Malcolm Dochstader on Monday afternoon. The mill, a two-storey building in the heart of the village, at the corner of Main and Bridge streets, was one of the landmarks of the district, and was erected more than a century ago.

Origin of the fire has not been determined. It is believed caused by either defective wiring or spontaneous combustion. The mill was being operated and a number of farmers were in the building when flames were first noticed shooting from the back of the roof overlooking the Welland River.

USED CAR REGULATIONS

An individual who wishes to sell his car and buy another must fill out a statement of sale, with all details, including the name and address of the owner and purchaser, etc. This form must be filed with the nearest Board office within four days of sale. Incidentally, an individual is not permitted to buy a car, sell it and buy another within the same year.

(By Janie)

Here we go again, this time for good, and they're really going to keep us under control, too with a staff of six teachers instead of the usual five.

Grade 9A has Mr. H. A. Dancause for a form teacher. He teaches Geography, Agricultural Science, Business Practice and Physical Education.

Grade 9B's teacher is Mrs. J. H. Jones whose subjects are English, History and Physical Education. A and B have a population of forty-seven.

Miss N. Hesford has 10A to worry about. She teaches Latin, History English and Art.

Miss A. B. Fraser's form is 10B and she teaches History, English and commerce. A full form (10A and 10B) is 48.

Grade 11 is taught by Miss G. Calder whose subjects are Maths. and Health. The total enrolment is 24.

Miss E. Glave has grade 12 to keep under control, — that's a bunch of 19. She has English and French.

Grade 13 has 12 students not pupils when you get that far. Their teacher is Mr. P. V. Smith, the principal. His subjects are Physics, Chemistry, Trigonometry, Agriculture, Science and Cadet Training.

By the way who's the slick chick from first form that's attracting all the eyes of the gallant sex?

I hear that some of the Upper School boys really enjoyed working

Quality Guaranteed

"SALADA"
TEA

with the Farmerettes. Queer!

Say some of these streamlined modern farm trucks get a lot of autographs all over them. Did you do that too?

P.S.—I wonder where different parts of farmerette signs disappeared to?

Did you hear about one G.H.S'er who got the autographs of everyone she was picking with, even the bosses, and embroidered the names all over her overalls. What next! Pea Shooters in the High School?

This is a funny world—Its wonders never cease, All "civilized" people are at war, All "savages" at peace.

Can Now Exhibit
Farm Machinery

Farm implements are now allowed to be exhibited at Fairs, exhibitions, Conventions, Rodeos, etc. following revocation by the Wartime Prices and Trade Board, September 11th, of Order No. A185. This order has been in effect since May 23, 1942, to make the most efficient use of available supplies. This order, however, did not prevent the farmer from using his own or another farmer's machinery and equipment for a Plowing Match.

The Lincoln County Plowing Match will be held on Wednesday, October 25, and it is expected that there will be a larger display of

farm machinery, tractors, farm equipment etc. than for the past two years as a result of the above order being revised. A meeting of the Plowmen's Association Directors to be held Tuesday evening, September 19th, at Beamsville, will decide the farm on which the Plowing Match will be held this year and further announcement will be made through the Press shortly.
